INSECTICIDE

DIRECTIONS FOR USE: Apply with attached trigger sprayer. Adjust nozzle to suitable spray pattern. INSECT PESTS INDOORS: For control of fleas and brown dog ticks, apply a spray treatment to infested areas, such as pet beds and resting quarters; nearby cracks and crevices; along and behind baseboards and localized areas of floor and floor-covering where these pests may be present. Old bedding of pets should be removed and replaced with clean, fresh bedding after treatment. DO NOT TREAT PETS OR HUMANS WITH THIS PRODUCT. DO

NOT TREAT FURNITURE WITH THIS PRODUCT. For control of carpet beetles, apply spray as a spot treatment along baseboards and edges of carpeting, under carpeting, rugs and furniture, in closets and on shelving, and wherever else these insects are seen or suspected. Apply to localized areas where cockroaches, ants, crickets, firebrats, silverfish and spiders are found or normally occur including dark corners of rooms and closets; cracks and crevices in walls, along and behind baseboards; beneath and behind sinks, stoves, refrigerators and cabinets; around plumbing and other utility installations. For ants apply to trails, also around doors and windows and wherever else these pests may find entrance. NOTE: A period of 4 to 7 days is normally required for maximum effect on cockroaches. In homes or dwellings, remove or cover all food before application. Do not apply in dwellings where occupants are ill. PESTS OUT OF DOORS. Ants, Crickets, and Earwigs: For treatment of localized infestation of these insects in outdoor areas where there are weeds or brush non-crop areas, spray infested areas thoroughly. Do not use garden vegetables or fruit crops. For ants, thoroughly treat hills and runways. Repeat application if reinfestations occur. REMEMBER...ALWAYS STORE PESTICIDES, CAPS, SPRAYERS AND RELATED EQUIPMENT OUT OF REACH OF CHILDREN AND PETS. PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Avoid contact with eyes, skin and clothing. Avoid breathing vapours or spray mist. Wash thoroughly after handling. Wash contaminated clothing before reuse, destroy contaminated shoes. Do not apply this product in electrical equipment because of possible shock hazard. Do not allow spray to contact food, feedstuffs, and water supplies. Thoroughly wash dishes and food utensils with soap and water if they become contaminated by application of this product. Do not allow children or pets to contact treated surfaces until spray has dried and do not apply to areas where they are likely to make frequent contact with the deposit. Remove pets and cover fish bowls (tanks) before spraying. FIRST AID: IF SWALLOWED: Induce vomiting and seek medical attention or call a poison control centre immediately. IF IN EYES: Flush immediately with flowing water for at least 5 minutes. Seek medical attention. IF ON SKIN: Wash off in flowing water or shower.

TOXICOLOGICAL INFORMATION:

Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine, only by injection is antidotal.

ENVIRONMENTAL HAZARDS: This product is highly toxic to bees exposed to direct treatment or residue on plants. Spray when

bees are not actively foraging. Chlorpyrifos is toxic to fish, crustaceans and birds. Keep out of lakes and streams.

DISPOSAL: Dispose of empty container with household garbage. Do not re-use container.

STORAGE: Do not store below 0'C. Store away from food, feedstuffs and domestic water supplies.
