Directions for use:

To be used only in the manufacture of an insecticide which is registered under the Pest Control Products Act. Read Technical Bulletin for formulation details.

Cautions:

May be fatal if swallowed. May be absorbed through skin. Do not breathe vapours. Avoid contact with skin and eyes. Wash thoroughly after handling. Avoid contamination of feed and foodstuffs.

First Aid:

If swallowed, call a physician immediately. Drink 1 or 2 glasses of water and induce vomiting by touching the back of throat with a finger.

If inhaled, remove victim to fresh air and apply respiration if indicated.

If on skin, wash promptly with soap and water.

If in eyes, rinse eyes with plenty of water and call physician immediately.

Toxicological Information:

LD 50 oral rat: 88-225 mg/kg body weight.

Toxic to fish, birds and other wildlife.

Disposal and Decontamination:

Do not decontaminate water, food or feed by storage or disposal. Open dumping is prohibited. Wastes are toxic. Improper disposal of excess pesticides is a violation of law. If wastes cannot be disposed of by use according to label instructions, contact the local office of the Environmental Protection Service, Environment Canada.

Container disposal: Completely empty liner by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then dispose of liner in a sanitary landfill. Do not reuse empty container.

Storage:

Under normal storage conditions stable for at least 5 years. Do not exceed 50 deg C. Avoid humidity.

Notice to User:

This pesticide may be used only for formulation of an insecticide.
