Non-Toxic to plant and animal life.

READ LABEL BEFORE USING

REGISTRATION NO. 24089
PEST CONTROL PRODUCTS ACT

Net Content
946 mL (33 oz.)

PRECAUTIONS

Avoid contact with eyes, skin, food and clothing. Avoid tasting! The taste is extremely bitter and very unpleasant.

FIRST AID

If repellent gets on eyes, skin or clothing, wash thoroughly with plenty of water. Hands may be washed first with isopropyl or ethyl alcohol, then soap and water. Get medical attention if an irritation occurs and persists.

KEEP OUT OF REACH OF CHILDREN

Never use on food, edible plants or directly on the fruit or nuts of trees. Do not use on

sugar maple trees, if syrup is to be used, since **RO-PEL** could affect the taste of the maple syrup. **RO-PEL** has not proven to be harmful to plants when used as directed;

but as an added precaution a test should be made before applying.

Store **RO-PEL** in cool area away from heat. Do not smoke or eat while applying. Wash hands thoroughly after use.

NOTICE TO BUYER

Seller's guarantee shall be limited to the terms set out on the label and subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.

NOTICE TO USER

This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

DIRECTIONS FOR USE

RO-PEL can be used to control damage caused by domestic dogs, domestic cats, rabbits, racoons, beavers, mice, rats, deer, squirrels, voles, porcupines, etc.; also seed, carrion and fruit eating birds. Generously apply to dry surfaces. Do not apply on rainy or windy days. Spray on bark of trees, bushes, ornamental plants and flowers, bulbs, siding, fences, posts, garbage, and places visited by undesirable animals.

Spray all surfaces to be protected until completely wet. Allow to dry before handling or re-applying. For extra protection, apply a second time. Do not dilute! Do not mix with other chemicals!

RO-PEL contains special penetrating ingredients which permeate the bark of trees and the outer layer of plants and flowers. The repellent remains intact and withstands outside elements. Annual reapplication is advised. Before using on painted surfaces, test a small area to determine whether **RO-PEL'S** ingredients will damage the paint. Do the same with plastics or fabrics. If in doubt, test first!

DISPOSAL

Do not reuse empty container. Discard empty container and unneeded material in household garbage.
