PREZERV BEFORE PAINTING

CLEAR PREZERV:

Soaks deep into wood to protect against rot caused by mould, fungus, mildew and many wood-boring insects. For exterior use, above ground only. Also for protecting rope and canvas. Can be easily painted or stained...or left uncoloured if you prefer the appearance of natural wood.

DIRECTIONS FOR USE

FOR WOOD:

Wood should be clean and dry, free of paint, varnish, grease or

oil. Do not dilute. Apply by brush or dip 2 to 4 mins. per cm of thickness (6 to 12 mins. for dressed lumber). Second coat may be applied for high decay hazard: allow 8 hours between coats.

Approx. coverage: 4 sq. m (43 sq. ft.) per litre.

FOR ROPE AND CANVAS

Immerse material until saturated. Dry for 24 hours before using. Do not use on rubberized materials.

PRECAUTION:

- * Do not apply to wood or fabrics where prolonged skin contact may occur.
- * Do not apply where the preservative may become a component of food, feed or drinking water.

Harmful if swallowed or inhaled. Wear gloves. Use under well-ventilated conditions. Harmful to plant life when wet.

Keep away from open flame or spark

FIRST AID INSTRUCTIONS:

Contains petroleum distillate. If swallowed, do not induce vomiting. Call physician immediately. If patient is unconscious, give him/her air. Spatters on the skin should be removed promptly by washing with clean water: contact physician.

Toxicology: Contains petroleum distillates and zinc naphthenate.

Guarantee limited to replacement of product.
