FOR USE AS A CRACK AND CREVICE TREATMENT TO CONTROL INSECTS

LISTED ON FRONT PANEL.

DIRECTIONS: SHAKE CONTAINER WELL. Insert the "applicator wand" into the spray nozzle before using. This product is designed for applying into cracks, crevices or tight areas that are difficult to reach.

COCKROACHES: Spray directly into cracks and crevices particularly under baseboards where cockroaches like to go, and where the insecticide won't be mopped away. The foaming action of this formula completely fills tight crevices leaving a long-term insecticidally active residue. Spray into hard to reach places, behind refrigerators, washers, under sinks, between cabinets, under counters, etc.

ANTS: Apply to ant trails, around doors, windows and wherever ants enter house. Repeat as necessary.

SILVERFISH, CRICKETS AND SPIDERS: Spray infested areas. Repeat as necessary.

KEEP PETS AND CHILDREN AWAY UNTIL RESIDUE IS DRY.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Contents under pressure. Do not place in hot water or near radiators, stove or other sources of heat, or store at temperatures over 50 deg C. Do not spray near open flame or spark. Harmful if swallowed, inhaled or absorbed through skin. Avoid contact with eyes, skin or clothing. DO NOT USE ON HUMANS, PLANTS, ANIMALS, FOOD STUFF, FOOD UTENSILS, FISHBOWLS OR ANIMAL FEED AREAS. DO NOT USE AS A SPACE SPRAY. DO NOT CONTAMINATE FOODSTUFFS. Do not use in any area where food may be exposed. Do not use in bulk food storage areas. Do not use in cupboards where food or cooking utensils are stored. In home or dwellings, remove or cover all exposed food and cooking utensils before spraying. Thoroughly wash all surfaces that might contact food before reuse.

FIRST AID TREATMENT: Chlorpyrifos is a cholinesterase inhibitor. Atropine is antidotal. In case of contact with the skin, wash with soap and water. If in eyes, flush with water 15 minutes, get medical attention. If accidentally swallowed obtain medical attention at once.

DISPOSAL: When container is empty, press button to release all pressure, then dispose in household garbage. Do not puncture or incinerate.
