AFTER HOURS: 1-800-274-5263

DIRECTIONS FOR USE:

Biosperse 284 provides control of algae, bacteria and fungi in industrial recirculating cooling water systems including cooling towers, air washers and evaporative condensers.

To establish microbial control in these systems, a dosage of 50-100ppm of Biosperse 284, added to the water, one to three times weekly, is normally sufficient. Once control is evident, 12.5-60 ppm of Biosperse 284 to the water in the system every three days should maintain control. This product is not to be used in the production of paper or paperboard that comes in contact with food.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN, HARMFUL OR FATAL IF SWALLOWED OR ABSORBED THROUGH SKIN.

Causes skin and eye irritation. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly after handling. Remove and wash contaminated clothing before reuse. Keep away from heat and open flame. Keep container closed when not in use. This product is toxic to fish and wildlife. Treated effluent should not be discharged where it will drain into lakes, ponds or public water.

FIRST AID INSTRUCTIONS:

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician or a poison control centre immediately. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION:

Biosperse 284 should only be used at a pH of 3 to 9. A higher and lower pH can cause the liberation of hydrogen cyanide or cyanates.

DISPOSAL:

- 1. Triple- or pressure-rinse the empty container. Add the rinsings to the treatment site.
- 2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal or reconditioning.
- 3. Make the empty container unsuitable for further use.
- 4. Dispose of the container in accordance with provincial requirements.
- 5. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.
