General purpose liquid germicide, to sanitize and disinfect,
acting also as an organic odors killer.

RECOMMENDED USES: To disinfect walls, floors, tables, equipments,

tubs, belts, dishes, utensils, in hospitals, hotels, motels, institutions, dairies, butcher's shops, restaurants, food plants, etc.

DIRECTIONS: FOOD PLANTS: Clean and remove all excess dirt. Dilute 2 mL per litre of water. Use prepared mixture as disinfectant and allow a few minutes before rinsing. For highly contaminated places or porous materials, a 1% mixture strength could be required (10 mL per litre of water).

UTENSILS: Rinsing requires 3 to 6 mL per litre of water. Rinse with clear water.

GENERAL DISINFECTION: Use 5 mL per litre of water.

DO NOT MIX WITH SOAP OR ANIONIC DETERGENT.

All food contact surfaces treated with solution of germicidal content higher than 200 ppm (2 mL/L of water) must be thoroughly rinsed with potable water before re-use.

CAUTION: This product contains a quaternary ammonium germicide. Causes eye damage and skin irritation. Avoid contact with eyes and skin. Harmful if swallowed. KEEP OUT OF REACH OF CHILDREN. Do not store in food processing/storage areas.

FIRST AID: If splashed in eyes or on skin, flush immediately with plenty of water for 15 minutes. For eyes, call a physician. If swallowed, drink milk, egg whites, gelatin solution or drink large quantities of water. Call a physician.
