Miles Canada Inc., Agriculture Division
Animal Health Products
77 Belfield Road
Etobicoke, Ontario, Canada M9W 1G6
(Telephone: 416-248-0771)

May be fatal if swallowed, inhaled or absorbed through the skin. Rapidly absorbed through the skin. Repeated dermal contact may be increasingly hazardous. Do not get in eyes, on skin, or on clothing. Do not breathe fumes. Wash thoroughly with soap and warm water after handling. Wash clothing with soap and hot water before use.

FIRST AID: If swallowed, vomiting should be induced.

Administer water freely and induce vomiting by giving one dose (15 mL) of syrup of ipecac. If vomiting does not occur within 10 to 20 minutes, administer second dose. If syrup of ipecac is not available, induce vomiting by sticking finger down throat. Repeat until vomit fluid is clear. Never give anything by mouth to an unconscious person. Professional medical assistance should be secured immediately.

ANTIDOTE: Administer atropine sulfate in large therapeutic doses. Repeat as necessary to the point of tolerance. 2-PAM is also antidotal and may be administered in conjunction with atropine.

This product is toxic to fish and wildlife. Do not contaminate water by cleaning of equipment or disposal of wastes.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

In case of spillage, cover with absorbent such as soda, ash, clay, or sawdust. Sweep up and dispose of properly. Wash area thoroughly with strong lye solution.

DISPOSAL: Canadian formulators of this technical should dispose of unwanted active and containers in accordance with municipal or provincial regulations. For additional details and cleanup of spills, contact the regional office of Environmental Protection, Environment Canada.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offense under the Pest Control Products Act to use a control product under unsafe conditions.
