Mississauga, ON L5E 1H8 Canada

FOR USE AS A SPOT OR CRACK AND CREVICE TREATMENT TO CONTROL INSECTS LISTED ON FRONT PANEL.

INDOOR USE: Thoroughly treat cracks, crevices and spots along baseboards, underneath furniture and equipment, around garbage containers and other places where insects habitate. In dwellings, remove or cover exposed foods and cooking utensils before spraying. Do not spray or contaminate surfaces which may contact food. Remove pets from the room during spraying. Cover or remove aquaria for 1 hour.

OUTDOOR USE: Spray outside surfaces of screens, doors, window frames, foundations, light fixtures and other places where insects may alight, or congregate and enter.

DIRECTIONS: Hold container approximately 30cm from surface being sprayed and spray until wet. Thorough applications produce a coating which will vapourize into cracks and crevices for insect control. Provide adequate ventilation after indoor use. Do not inhale spray mist. KEEP PETS AND CHILDREN AWAY FROM SURFACE UNTIL DRY.

PRECAUTION: KEEP OUT OF REACH OF CHILDREN. Contents under pressure. Do not place in hot water or near radiators, stoves or other sources of heat, or store at temperatures over 50 deg C. Do not spray near flame or spark. Harmful if swallowed, inhaled or absorbed through skin. Avoid contact with eyes, skin or clothing. DO NOT USE ON HUMANS, PLANTS, ANIMALS, FOOD STUFF, FOOD UTENSILS, FISHBOWLS, OR ANIMAL FEED AREAS. DO NOT USE AS A SPACE SPRAY.

FIRST AID TREATMENT: Contains volatile petroleum distillate. If swallowed, do not induce vomiting. Call physician immediately. PROPOXUR IS A MILD CHOLINESTERASE INHIBITOR. Atropine is antidotal. In case of contact with the skin, wash with soap and water. If in eyes, flush with water for 15 minutes, get medical attention.

DISPOSAL: When container is empty, press button to release all pressure, then dispose in garbage. Do not puncture or incinerate.
