A MULTI-PURPOSE GERMICIDE COMBINED WITH A DETERGENT CLEANER

Staphylocidal, pseudomonacidal and fungicidal. Biodegradable TOR contains not more than 0.46% phosphorus in the form of phosphates. TOR is recommended for every cleaning purpose except as a skin cleaner. TOR kills resistant staph. It is a good deodorizer, as it cleans and disinfects, all in one easy operation. TOR contains no soap, therefore, leaves surfaces perfectly free of soil and film. Rinses freely; however, rinsing is not necessary unless a coating of wax or polish is to be applied.

A.O.A.C. USE DILUTION CONFIRMATION TEST:

Kills Salmonella choleraesuis	2 1/2 to 160
Kills Staphylococcus aureus	2 1/2 to 160
Kills Pseudomonas aeruginosa	2 1/2 to 160
Kills Trichophyton interdigitale	2 1/2 to 160

DIRECTIONS FOR USE: Apply with mop, sponge or cloth. Rinsing is not necessary on floors. As a germicidal cleaner, use 16 mL per litre of water (2 1/2 to 160). As a sanitizer, use 8 mL per litre of water (1 1/4 to 160). For heavy duty cleaning, increase amount of TOR according to the amount of soil.

USE: Floors, furniture, metals, porcelain, toilet bowls, walls, paint, urinals, plastics, linen, basins, instruments, showers, athletic equipment, conductive floors, venetian blinds, lavatory fixtures.

PRECAUTIONS: Keep out of reach of children. Avoid contamination of feed and foodstuffs. Surfaces which contact food must be completely rinsed with potable water. Harmful if taken internally. Avoid contact with eyes. Avoid contact of undiluted material with skin.

FIRST AID: Internal: Give raw egg white, milk, mucilage, gruel or corn starch paste and follow with emetic of mustard. Call a physician. External: Wash with water and alcohol. In case contact, flush with plenty of water, get medical attention.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offence

under the Pest Control Products Act to use a control product under unsafe conditions.
