PRECAUTIONARY STATEMENTS

Keep out of reach of children. Corrosive. Causes eye and skin damage. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful if swallowed. Avoid contamination of food.

STORAGE AND DISPOSAL

- Do not contaminate water, food, or feed by storage or disposal.
- Open dumping is prohibited.
- Do not reuse empty container.

CONTAINER DISPOSAL

Triple rinse (or equivalent). Then offer for recycling or reconditioning, or dispose of in a sanitary landfill, or by incineration if allowed by authorities.

FIRST AID INSTRUCTIONS

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution; or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

TOXICOLOGICAL INFORMATION

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression, and convulsion may be needed.

NOTICE TO USER

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offense under the Pest Control Products Act to use a control product under unsafe conditions.

Cross-contamination is of major housekeeping concern not only in hospitals, but in schools, institutions, and industry. SUPER BACTACIDE has been formulated to aid in the reduction of cross-contamination in these areas. SUPER BACTACIDE is a one-step disinfectant cleaner that is effective against a broad spectrum

of bacteria, is virucidal, fungicidal, and will prevent the growth of mold and mildew and their odors when used as directed. SUPER BACTACIDE is an effective one-step sanitizer-cleaner for use on non-food contact surfaces.

When used as directed, SUPER BACTACIDE will deodorize surfaces in toilet areas, behind and under sinks and counters, garbage cans and garbage storage areas, and other places where bacterial growth can cause mal odors.

Directions for Use

GENERAL CLASSIFICATION

SUPER BACTACIDE is a proven "one-step" cleaner - disinfectant - sanitizer - fungicide - mildewstat virucide in the presence of moderate amounts of organic soil. Apply SUPER BACTACIDE to walls, floors and other hard (inanimate surfaces) such as tables, chairs, countertops, tile, porcelain, sinks and bedframes with a cloth or mop so as to thoroughly wet surfaces. For heavily soiled areas, a preliminary cleaning is required. Prepare a fresh solution daily or when used solution becomes visibly dirty. HOSPITAL DISINFECTION - add 8 ml per Litre of water. Treated surfaces must remain wet for 10 minutes. Fungicidal Performance. SUPER BACTACIDE is an effective fungicide against Trichophyton mentagrophytes (the athlete's foot fungus) when used on surfaces in areas such as locker rooms, dressing rooms, shower and bath areas and exercise facilities, at 8 ml/Litre.

MOLD AND MILDEW CONTROL At 8 ml/Litre, SUPER BACTACIDE will effectively inhibit the growth of mold and mildew and the odors caused by them when applied to hard, non-porous surfaces (as indicated in general instructions above). Allow to dry on surface and repeat when mildew growth returns.

SANITIZING-NON-FOOD CONTACT SURFACES (such as floors, walls, tables, etc.) At 2.5 ml/Litre use-level, SUPER BACTACIDE is an effective sanitizer against Staphylococcus aureus and Salmonella typhi on porous and non-porous surfaces. Treated surface must remain wet for 2 minutes.
