**DIRECTIONS FOR USE:**

Amerstat 282 is used in pulp and paper mills for controlling the growth of bacterial and fungal slime. It is also effective in controlling odour causing algae, bacteria and fungi in Log Ponds and Thaw Ponds.

The dosage of Amerstat 282 will in general vary from 50 to 250 grams per tonne of finished paper and should be fed continuously to such points as the hydropulper, machine chest or broke system. For Log Ponds or Thaw Ponds an initial dosage of 20-40ppm is fed into the pond once per day, until the microbiological growth and odour are under

control. When control has been established the addition of 4-10ppm, added daily, is used to maintain control. For further details contact your Drew representative.

This product is not to be used in the production of paper or paperboard that comes in contact with food.

**PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN, HARMFULL OR FATAL IF SWALLOWED OR ABSORBED THROUGH SKIN.**

Causes skin and eye irritation. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly after handling. Remove and wash contaminated clothing before reuse. Keep away from heat and open flame. Keep container closed when not in use. This product is toxic to fish and wildlife. Treated effluent should not be discharged where it will drain into lakes, ponds or public water.

**FIRST AID INSTRUCTIONS:**

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician or a poison control centre immediately. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

**TOXICOLOGICAL INFORMATION:**

Amerstat 282 should only be used at a pH of 3 to 9. A higher and lower pH can cause the liberation of hydrogen cyanide or cyanates.

**DISPOSAL:**

1. Triple- or pressure-rinse the empty container thoroughly. Add the rinsings to treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal or reconditioning.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with provincial requirements.
5. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.
