MALOTT CLEAR 111

CHLORINATING LIQUID

CONTROLS BACTERIA AND ALGAE

In Swimming Pool Waters

DOMESTIC

GUARANTEE:

Sodium Hypochlorite..... 10.8%

Available Chlorine Content.... 10.3%

WARNING

CORROSIVE

DANGEROUS GAS FORMED WHEN MIXED WITH ACID

READ THE LABEL BEFORE USING

MALOTT POOLS, SPAS AND ACCESSORIES

111 ERIE STREET NORTH

LEAMINGTON, ONTARIO N8H 2Z9

326-4649

DIRECTIONS FOR USE

1. Maintain recommended daily levels as determined by testing kit.

Free available chlorine: 1.0 - 3.0 ppm

pH: 7.2 - 7.8

Total Alkalinity: 100 - 200 ppm
Calcium Hardness: 200 - 300 ppm

2. Initially superchlorinate pool water by adding to the pool 1 L of Pool Sanitizer - 1 per 10,000 L of pool water. For best results superchlorinate at dusk.
3. Chlorinate daily to maintain proper chlorine residual with 250 mL of Pool Sanitizer - 1 per 10,000 litres of pool water, or as needed.

NOTE: Hot weather, heavy pool usage, and rain may require higher usage rates to maintain proper chlorine residuals.

4. Superchlorinate weekly with 1 L per 10,000 litres when average daily temperature is 25'C - 32'C.
5. For visible algae superchlorinate using 2 L of Pool Sanitizer - 1 per 10,000 L of pool water. Heavy algae infestation may require dosages up to 3 L per 10,000 L. Vacuum pool when dead algae settles.
6. For wading pools, chlorinate daily to maintain a chlorine residual of 3-5 ppm by adding 45.0 mL of Pool Sanitizer - 1 per 1000 L of pool water, or as needed.

NOTE: For outdoor pools, chlorine residuals can be protected from destruction by sun's rays by addition of stabilizer (cyanuric acid).

PRECAUTIONS:

- * Keep Out of Reach of Children.
- * Do Not Mix with Any Other Chemical.
- * Dangerous Gas Formed When Mixed with Acid.
- * Avoid Contact with Skin and Eyes.
- * Harmful if Swallowed.
- * Keep Container Closed and Store in a Cool Location.
- * Rinse container thoroughly before discarding.
- * To dispose of chemical, flush into sewer with large quantities of water.

FIRST AID

If splashed in eyes or on skin, flush thoroughly with water for 15 minutes. For eye contact, get medical attention. If swallowed, drink one glass of milk or water.

Call a Physician IMMEDIATELY.
