APPLICATIONS: A concentrated insecticide for use in hospitals, food processing plants, restaurants, hotels and other commercial and industrial buildings to kill flying and crawling insects on contact.

DIRECTIONS: USE ONLY AS DIRECTED ON THIS LABEL. SHAKE BEFORE USE. HOLD CONTAINER UPRIGHT.

TO KILL FLYING INSECTS ON CONTACT (flies, mosquitoes, wasps,

gnats, and moths): Close doors and windows and apply a 6-10 second burst per 30 m³ of space. Direct mist upwards in sweeping motion to all parts of the room, especially windows and other light sources as well as into areas where insects are present. Avoid spraying interior walls, fabrics and furniture to prevent possible staining or fabric reaction (where possible, pretest prior to use). Keep doors and windows closed for 15 minutes after treatment. Ensure proper ventilation after sealed areas have been treated. Clean up and dispose of dead insects. Spray only when temperature is under 32'C.

TO KILL CRAWLING INSECTS ON CONTACT (cockroaches, spiders, crickets, ants, carpet beetles, centipedes, and silverfish): Spray hiding places such as baseboards, moist areas, openings around sinks, drain and pipes, behind cabinets and storage areas. Spray ant trails, around door sills, window frames or in ant nests.

BED BUGS: Spray mattress, particularly around seams and tufts. Disassemble bed and spray all joints and crevices. Repeat as required.

FLEAS: Spray infested areas (pet's bed or resting places) as well as nearby cracks, crevices, baseboards, window and door frames, immediate floor areas and floor coverings where these pests may hide. Do not treat pets with this product.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Not for use on humans. Avoid inhalation of spray. Do not remain in treated areas. Ensure proper ventilation after sealed areas have been treated. Any treated surfaces that may contact food or feed products should be washed thoroughly with potable water after spraying and before re-use. Avoid contact with skin and eyes. Wash after using. CONTENTS UNDER PRESSURE. Do not place in hot water or near radiators, stove or other sources of heat. Do not puncture or incinerate can or store at temperatures over 50'C. Do not spray into or near any open flame. In hospitals, do not use in nurseries or rooms where infants, ill or aged persons are confined.

In food processing plants and food service establishments, apply only when plant is NOT in operation. Remove all food before treatment. Remove or cover all food packaging materials, utensils and food processing surfaces prior to spraying. After treatment, wash all surfaces that may contact food and rinse thoroughly with potable water before resuming operations.

FIRST AID TREATMENT: If sprayed in eyes or skin, flush with clean water. If irritation persists, obtain medical attention. If accidentally swallowed, obtain medical attention at once.

DISPOSAL: When empty, depress valve to release remaining pressure. Dispose of empty container in accordance with Provincial requirements. For information on disposal of unused, unwanted product and the cleanup of spills, contact regional office of Conservation and Protection, Environment Canada.

NOTICE TO USER: This control product is to be used in accordance with directions of this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

LIMITATIONS OF WARRANTY: Seller's guarantee shall be limited to the terms set out on the label and subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.
