NET CONTENTS:

PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS

Corrosive to eyes and skin. Do not get in eyes, on skin or on

clothing. In case of contact, immediately flush eyes or skin with plenty of water. Get medical attention if irritation persists. May be fatal if inhaled. Do not inhale vapors or mist. When handling the concentrate, wear full face protection with cartridge respirator and chemical resistant gloves, apron, cap and boots. Use only in well ventilated areas. Do not wear contact lenses.

#### FIRST AID

If in eyes: Hold eyelids open and flush with a steady stream of water for 15 minutes. Get medical attention.

If on skin: Wash with plenty of soap and water. Get medical attention.

If swallowed: Call a physician or poison control centre. Drink promptly a large quantity of milk, egg white or gelatin mixture, or, if these are not available, large quantities of water. Do not give anything by mouth to an unconscious person.

If inhaled: Remove victim to fresh air. If not breathing, give mouth to mouth. Get medical attention, or contact poison control center.

Take container, label or product name and Pest Control Product Registration Number with you to emergency hospital or to physician when seeking medical attention.

#### TOXICOLOGICAL INFORMATION:

Probable mucosal damage may contraindicate the use of gastric lavage.

#### ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water or wetlands. Do not contaminate water by cleaning of equipment or disposal of wastes.

#### PHYSICAL AND CHEMICAL HAZARDS

Do not use, pour, spill or store near heat or open flame.

#### DIRECTIONS FOR USE

#### APPLICATION:

Troysan Polyphase FX-30 is sold for industrial use only. It should be used in the areas listed in accordance with

instructions provided in the Canadian Technical Bulletin.

USE LIMITATIONS:

Treatment facilities shall provide appropriate industrial hygiene measures and safety equipment for the safe use of this product. The treatment site must have effective containment and pollution abatement technology to insure that the pesticide is not released into the surrounding environment under normal operating conditions.

STORAGE AND DISPOSAL

STORAGE:

Do not store below 16°C. Optimum storage temperature of 16-32°C is recommended.

DISPOSAL:

1. Triple or pressure-rinse the emptied container thoroughly and add the rinsings to the treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with provincial requirements.
5. For information on the disposal of unused, unwanted product and the cleanup of spills, contact the Provincial Regulatory Agency or the manufacturer.

Do not contaminate water, food or feed by storage or disposal.

NOTICE TO USER:

This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

PEST CONTROL PRODUCTS ACT

READ THE LABEL AND TECHNICAL BULLETIN BEFORE USING

#### PRODUCT

TROYSAN POLYPHASE FX-30 is a broad spectrum liquid, non-metallic fungicide, which is effective against a wide variety of fungal organisms.

#### USES:

The recommended use levels for TROYSAN POLYPHASE FX-30 in percentage by weight and parts per million (ppm) refer to the product TROYSAN POLYPHASE FX-30. In order to determine the most effective use level for TROYSAN POLYPHASE FX-30 in a given end use, field trials are suggested.

#### CUTTING OILS:

TROYSAN POLYPHASE FX-30 may be used in metal-working fluids to prevent fungal growth at concentrations of 0.1% - 0.5% (100-500 ppm). It should be added to the cutting fluid concentrate in amount sufficient to yield the desired concentration in the diluted composition. It is recommended that biocide levels be checked periodically as many cutting oils are unstable upon standing.

#### STORAGE AND HANDLING:

TROYSAN POLYPHASE FX-30 has a tendency to crystallize at low temperatures. Storage temperatures below 90°F (32°C) and above 32°F (0°C) are recommended. Store drums in an upright position. Do not reuse empty drums. Dispose of in accordance with label directions. Complete safety and handling information will be found in the Material Safety Data Sheet.

#### TYPICAL PROPERTIES

Active Ingredient: 20% min. 3-iodo-2-propynyl butyl carbamate  
Appearance: Amber mobile liquid

Color: Clear Yellow  
Viscosity (Gardner Bubble) 25': A-5  
Specific Gravity 25'C: 1.030  
Lbs/Gal.: 8.60  
Odor: Characteristic  
Solubility: Soluble in aromatics and alcohol
