Notification Change

REFER TO MATERIAL SAFETY DATA HANDLING SHEET PRIOR TO USE.

NOTICE TO USER:

This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

NOTICE TO BUYER:

Seller's guarantee shall be limited to the terms set out on the label and subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.

DIRECTIONS FOR USE:

Biosperse 210 provides excellent control of a broad spectrum of

micro-organisms commonly found in industrial recirculating water cooling towers and air washers.

Dosages for industrial recirculating water cooling towers will depend on the condition of the system prior to treatment initiation. Systems which are heavily contaminated should be cleaned first. Initial dosages should usually be 60 to 120 ppm, added to the water of the system, once to three times weekly. When the required microbial control is established a dosage of 30-60 ppm should be fed into the water of the system every three days or as needed to maintain good control. Air Washers should be precleaned with a suitable detergent before adding Biosperse 210. Then use the same dosages as for Cooling Towers. Please refer to the Product Data Sheet for further details on dosages and feeding.

PRECAUTIONS:

KEEP OUT OF REACH OF CHILDREN. Biosperse 210 is a toxic material. May be harmful or fatal if swallowed. May cause eye and skin irritation. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. This product is toxic to fish and wildlife. Treated effluent should not be discharged where it will drain into lakes, ponds or public water. Do not reuse empty containers.

FIRST AID INSTRUCTIONS:

If swallowed, do not induce vomiting. Drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately. If inhaled remove immediately to fresh air. If not breathing, apply artificial respiration. If breathing is difficult, give oxygen. Call a physician. If on skin, wash thoroughly with soap and water. Remove and wash contaminated clothing before reuse. If in eyes, flush with plenty of water for at least 15 minutes. Call a physician.

TOXICOLOGY:

Ingestion may produce symptoms of nonspecific irritation of the gastrointestinal tract: nausea, vomiting, cramps and diarrhea. In severe cases central nervous system depression may result. Dermal Irritation may occur with some sensitive people.

DISPOSAL:

1. Rinse the emptied container thoroughly and add the rinsings to the treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal or reconditioning.

3. Dispose of the container in accordance with provincial requirements.
4. For information on the disposal of unused, unwanted product and the cleanup of spills, contact the regional office of Environment Canada.
5. For small spills, recover free liquid. Soak up residue with solids absorbent. DO NOT FLUSH INTO SURFACE STREAMS. INFORM ENVIRONMENT CANADA AS IN #4.
