PRECAUTIONS

DANGER: Eye irritant

IRRITATING TO SKIN AND EYES.

WEAR PROTECTIVE GLOVES AND FACESHIELD when handling the concentrate.

WASH HANDS AND EXPOSED SKIN before meals and after work.

HARMFUL TO FISH. Do not contaminate ponds, waterways or ditches with chemical or used container.

STORE IN ORIGINAL CONTAINER tightly closed in a safe place.

WASH OUT CONTAINER THOROUGHLY and dispose of safely.

FIRST AID

WASH CONCENTRATE from skin or eyes immediately.

Seek medical attention or contact a poison control centre, should irritation persist.

In case of ingestion, medical attention should be sought immediately or contact a poison control centre. If medical attention is delayed and specialized first aid skills are available, then the patient may be made to vomit; otherwise, the patient should be given quantities of water or milk to drink until medical aid is available.

EMERGENCY TELEPHONE NUMBER

All hours, 1-800-327-8633 (FASTMED) ONLY for health and environmental information.

DECONTAMINATION OF SPRAYING EQUIPMENT Wash equipment thoroughly, paying particular attention to the inside top of the spray tank, which should be scrubbed immediately after use. Spray out, fill with clean water, and leave overnight. Traces of the product can cause harm to susceptible crops sprayed later.

STORAGE Store FRIGATE XL in the original containers, tightly closed, in a safe, dry place.

DISPOSAL Rinse the emptied container thoroughly and add the rinsings to the spray mixture in the tank. Follow provincial instructions for any required additional cleaning of the container prior to its disposal. Make the empty container unsuitable for further use. Dispose of the container in accordance with provincial requirements. For information on the disposal of unused, unwanted product and the cleanup of spills, contact the Provincial Regulatory Agency or the manufacturer.

NOTICE TO USER This control product is to be used only in accordance with the directions on this label. It is an offense under the Pest Control Products Act to use a control product under unsafe conditions.

DIRECTIONS FOR USE

FRIGATE XL is an agricultural surfactant for use with ROUNDUP, WRANGLER and LAREDO herbicides.

PRINCIPAL USE FRIGATE XL may be tank-mixed with ROUNDUP, WRANGLER OR LAREDO for improved seasonal control of quackgrass (couchgrass) (*Agropyron repens*) when using spray volumes greater than 100 litres per hectare.

Refer to ROUNDUP, WRANGLER or LAREDO labels for precautionary statements and general product information.

APPLICATION AND TIMING For best control quackgrass should be actively growing with ample leaf area (3 to 4 leaf stage) to absorb the spray. Quackgrass (couchgrass) should be at least 20 cm tall and tillering and the rhizomes undisturbed by cultivation. Rainfall after spraying may wash off chemical and reduce effectiveness; dry conditions for six hours after treatment are essential.

Observe label recommendations for ROUNDUP, WRANGLER or LAREDO when using in conjunction with FRIGATE XL.

MIXING FRIGATE XL has been specially formulated for ease of mixing. Add ROUNDUP, WRANGLER or LAREDO to the required amount of water in the spray tank under agitation and then add the recommended quantity of FRIGATE XL and continue agitation. When water temperature is less than 5°C, premix FRIGATE XL with an equal volume of warm water (greater than 25°C) before adding to spray tank.

RATE OF USE Use 2.35 liters of ROUNDUP, WRANGLER or LAREDO in at least 100 liters of water per hectare in combination with 0.5% FRIGATE XL (0.5% liters per 100 liters of spray solution).

NOTICE TO BUYER

Seller's guarantee shall be limited to the terms set out on the label and, subject thereto, the buyer assumes the risks to persons or property arising from the use or handling of this product and accepts the product on that condition.
