Manufactured by:  
Cardinal Laboratories Inc.  
710 Ayon Avenue  
Azusa California 91702

DIRECTIONS FOR USE:

Start spraying at the tail, moving dispenser rapidly and making sure that the animal's entire body is covered, including the legs and underbody. While spraying, fluff the hair so that the spray will penetrate to the skin. Make sure spray wets thoroughly. Do not spray into eyes or face. Avoid contact with genitalia. Repeat as necessary but not more often than once a week. For effective dog and cat fleas, American dog and brown dog tick control, treatment of the pet must be combined with clean up and sanitization of any area used by the pet. For tick control, ticks must be treated directly with the product. Vacuum floors, carpets and furniture (discard vacuum bag after use) and wash the pet's living quarters and surrounding areas.

PRECAUTIONS:

Harmful if swallowed. Avoid contamination of feed or foodstuffs. Remove other pets, birds and cover fish aquariums before spraying. Do not contaminate any body of water. Consult veterinarian before using on pregnant animals, sick animals, or animals under drug or other pesticide treatment. Do not use on nursing animals or animals under 8 week of age. Discontinue use if adverse effects are observed.

FIRST AID:

If in eyes or on skin, flush with clean water. If irritation persists, obtain medical attention. If accidentally swallowed call poison control Centre and obtain medical attention at once.

DISPOSAL:

Do not reuse empty container. Wrap container in several layers of newspaper and discard with household garbage.
