QB-12 is a high strength sodium hypochlorite solution which exhibits excellent algaecidal properties. Proper use of QB-12 in conjunction will give a sanitary pool, free of harmful micro-organisms.

DIRECTIONS

1. Maintain recommended daily level as determined by testing kit:

Free Available Chlorine	1.0 - 3.0 ppm
pH	7.2 - 7.8 ppm
Total Alkalinity	100 - 120 ppm
Calcium Hardness	200 - 300 ppm

2. Superchlorinate pool water initially with 1 litre QB-12 per 10,000 litres of pool water.
3. For best results superchlorinate at dusk.
4. Chlorinate daily to maintain proper chlorine residual with 250 millilitres of QB-12 per 10,000 litres of pool water, or as needed.

NOTE: Hot weather, heavy pool usage and rain, may require higher dosage rates to maintain proper chlorine residuals.

5. Superchlorinate weekly with 1 litre per 10,000 litres when average daily temperature is 25'C - 32'C. Otherwise, superchlorinate every other week.
6. For visible algae, superchlorinate with 2 L per 10,000 litres of pool water. Heavy algae infestation may require dosages up to 3 L per 10,000 L. Wait at least 24 hours and vacuum pool when dead algae settles.
7. For wading pools, chlorinate daily to maintain chlorine residual at 3-5 ppm by adding 45 mL per 1,000 L of pool water, or as needed.

NOTE: For outdoor pools, chlorine residuals can be protected from destruction by sun's rays by addition of cyanuric acid (stabilizer).

PRECAUTIONS

- * Keep out of reach of children.
- * Dangerous gas formed when mixed with acid.
- * Avoid contact with skin and eyes.
- * Harmful if swallowed.
- * Keep container thoroughly before discarding.
- * To dispose of chemical, flush into sewer with large quantities of water.

FIRST AID: If splashed in eyes or on skin, flush thoroughly with water for 15 minutes. For eye contact, get medical attention. If swallowed, drink one or two glasses of milk or warm water. Call a physician IMMEDIATELY. Keep patient warm.

STORAGE: Use at once - stability maximum 6 months. Do not store in trunk of car for extended periods of time.
