BROMO-TABS

For Control of Algal, Bacterial and Fungal Slimes in  
Recirculating Cooling Water Systems and  
Once-Through Industrial Cooling Water Systems.

COMMERCIAL

GUARANTEE:

1-Bromo-3-chloro-5, 5-dimethylhydantoin . . . . . 25.2%

DIRECTIONS FOR USE

ONCE-THROUGH INDUSTRIAL COOLING WATER SYSTEMS: For the control  
of algal, bacterial and fungal slimes in once- through and

closed-cycle fresh and sea water cooling systems; cooling ponds, and lagoons; add Bromo-Tabs to the system inlet water or before any other contaminated area in the system. Each tablet weighs 20 gm.

RECIRCULATING COOLING WATER SYSTEMS: When used as directed, Bromicide effectively controls algal, bacterial and fungal slimes in commercial and industrial cooling towers; influent water systems such as flow through filters, and lagoons; heat exchange water systems, industrial water scrubbing systems; brewery pasteurizers; and industrial air washing systems equipped with a mist eliminator.

DOSAGES RATES: Initial Dose. When system is noticeably fouled, add 1.0-3.0 kg/10,000 L of water contained in the system. Repeat initial dosage until 1 mg/L halogen residual, measured as free chlorine, is established for at least 4 hours. Subsequent Dose. When microbial control is evident, add 0.5-1.50 kg/10,000 L of water contained in the system. Repeat as needed to maintain 1mg/L halogen residual, measures as free chlorine, for at least 4 hours.

FIRST AID INSTRUCTIONS: If swallowed, feed bread soaked milk, followed by olive oil or cooking oil. Seek medical attention immediately. In case of skin contact, brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation develops, seek medical attention. In case of eye contact, flush eyes with cold water for at least 15 minutes. Seek medical attention promptly.

PRECAUTIONS: Poisonous if swallowed. Do not breathe dust. Irrigating to nose and throat. Do not get, on skin or on clothing. Corrosive. Direct eye contact causes severe eye irritation. After handling, wash hands thoroughly. Remove and wash contaminated clothing before reuse. Physical and Chemical Hazards. Strong oxidizing agent. Mix only with water. Use clean, dry utensils and equipment. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire and explosion. Contamination with moisture, organic matter or other chemical may start a chemical reaction with generation of heat, hazardous gases and possible fire and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. If necessary, flood with large volumes of water. Environmental Hazards. This product is toxic to fish. Do not discharge into

lakes, streams, ponds or public waters.

STORAGE AND DISPOSAL:

STORAGE: Keep product dry in tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat, open flames, organic chemicals and sunlight. Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited.

DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. DO NOT REUSE EMPTY CONTAINER. Triple rinse the container (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incinerate. Burn only if allowed by provincial and local authorities. If burned, stay out of smoke.

NOTICE TO USER:

This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.
