DIRECTIONS FOR USE

To be used only in the manufacture of insecticides which are registered under the Pest Control Products Act. Read the technical bulletin or product information for formulation details. This product is to be used with appropriate solvents

and or carriers, and in the case of pressurized products, propellents, to produce an insecticide product.

Mix well in drum before sampling and each use.

PRECAUTIONS: Keep out of reach of unauthorized personnel. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. This product is toxic to fish, birds and wildlife. Do not discharge effluent containing this active ingredient into any body of water. Do not discharge effluent containing this product into sewer systems without previously notifying the sewage treatment plant authority. Flammable. Keep away from heat or open flame. Mix well in drum before sampling and before each use.

FIRST AID: In case of contact immediately flush eyes or skin with plenty of water. Obtain medical attention if irritation persists. Wash contaminated clothing with warm water and soap before reuse. If swallowed do not induce vomiting because of aspiration hazard. Contains petroleum distillate. Call a physician or poison control centre immediately. **NOTE TO PHYSICIAN:** This product contains cholinesterase inhibitor. Atropine, by injection, is antidotal and should be administered only if signs of cholinesterase inhibitor have appeared. 2-PAM is also antidotal and may be used in conjunction with atropine.

DISPOSAL & DECONTAMINATION: Rinse the empty container thoroughly and add the rinsings to the formulation tank. Follow provincial instructions for any required additional cleaning of the container prior to reuse or disposal. If required, make the container unsuitable for further use and dispose of in accordance with provincial requirements. For information on the disposal of unused, unwanted product and the clean up of spills, contact the Provincial Regulatory Agency or the Manufacturer.

STORAGE: If container is damaged: Stop any leaks by repositioning the container or by patching or otherwise repairing the leaks. Take care to avoid contact with pesticide and wear protective gear. On cleanup of spilled liquids, wear protective equipment as required to prevent contact with product or its vapors. Cover the spilled areas with generous amounts of absorbent material, such as clay, diatomaceous earth, sand or sawdust. Sweep the contaminated absorbent onto a shovel and put the sweepings into a salvage drum. Dispose of wastes as above.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

This label transcript service is offered by the Pest Management Regulatory Agency to provide efficient searching for label information. This service and this information do not replace the official hard-copy label. The PMRA does not provide any guarantee or assurance that the information obtained through this service is accurate, current or correct, and is therefore not liable for any loss resulting, directly or indirectly, from reliance upon this service.
