METASOL D3TH

INHIBITS AND CONTROLS GROWTH OF SLIME-FORMING  
BACTERIA AND FUNGI IN PULP AND PAPER MILLS

COMMERCIAL

GUARANTEE: Dazomet ..... 21%  
2-Mercaptobenzothiazole, sodium salt .....6%

REGISTRATION NO. 14646  
PEST CONTROL PRODUCTS ACT

READ THE LABEL BEFORE USING

WARNING

POISON                      CORROSIVE

NET WT: 218 kg

MANUFACTURED BY  
CALGON CORPORATION  
P.O. Box 1346  
Pittsburgh, PA 15230  
U.S.A.

FOR

CALGON CANADA INC.  
27 Finley Road  
Bramalea, Ontario  
L6T 1B2

CAUTIONS:

CAUSES EYE DAMAGE AND SKIN IRRITATION.

HARMFUL IF SWALLOWED.

Do not get in eyes, on skin, on clothing.

Wear goggles or face shield, rubber gloves, and aprons when handling.

Wash thoroughly after handling.

Do not breathe vapor or spray mist.

Do not use for potable water systems or where contamination of potable water may occur.

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, promptly induce vomiting by giving 15 mL of salt in a glass of warm water; repeat until vomit fluid is clear. Then give milk or white of egg beaten with water. Avoid alcohol. Call physician immediately.

NOTE TO PHYSICIAN: Gastric lavage with a stomach tube is contraindicated. Measures against circulatory shock, respiratory depression, and convulsion may be needed.

#### DISPOSAL OF EMPTY CONTAINERS AND SPILLAGE:

Do not reuse containers. When empty, rinse thoroughly with water. Perforate and burn container. Flush spillage with large quantities of water.

This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public water. Do not contaminate water by cleaning or equipment or disposal of wastes. Apply this product only as specified on this label.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

NOTICE TO BUYER: Seller's guarantee shall be limited to the terms set out on the label and subject thereto. The buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.

#### RECOMMENDED USES AND APPLICATIONS

##### For Bacterial and Fungal Slime Control in Pulp and Paper Mill Systems

DOSAGE: Test data show that METASOL D3TH in concentrations of 50 - 200 parts per million will inhibit the growth of slime forming bacteria and fungi in pulp and paper mill systems. Each mill system varies considerably with respect to the components of the furnish, white water temperatures, the extent of good housekeeping and types of equipment in use. The amount of METASOL D3TH required to minimize bacterial and fungal slime is best determined by actual test in the system and usually falls in the range of 0.25 - 1 kg/tonne.

Calgon Corporation offers the services of trained professional chemical engineers and microbiologists who can offer technical assistance in solving in-plant slime control products.

METHOD OF ADDITION: METASOL D3TH can be added directly from the drums to points in the wet end of the mill system by means of pumps or gravity feed. Good agitation is required for rapid

dispersion. Continuous addition is required for rapid dispersion. Continuous addition is the preferred method to insure adequate concentrations. This may be accomplished by use of metering pumps. Shock dosage is to be avoided.

NOTE: This product is not to be used in the production of paper or paperboard that comes in contact with food.
