Brampton, Ontario L6T 1E6
Div. of NCH Canada Inc.

Read the entire label before using this product.

GENERAL WEED CONTROL - Certified Lab Products' **CERTIFEN** can be used to control most weeds on non-cropland areas such as loading ramps, fence rows, railroad sidings, storage yards, parking lots, around buildings and industrial plant sites. Spot treatment may be necessary where annual weeds and grasses redevelop on treated areas: use one part **CERTIFEN** to nine parts water and thoroughly soak vegetation.

To control annual weeds and grasses such a foxtail, ryegrass, wildoats, crabgrass, ragweeds, lambsquarter, dilute 1.2 litres of Certified Lab Products' **CERTIFEN** to 10 litres of water and apply 20 litres of the diluted spray, per 100 m².

For hard-to-kill perennials weeds and grasses such as Salt Grass, Bouncing Bet, Bracken Fern, Horsetail, Smooth Brome, Canada Bluegrass, Purpletop, quackgrass, aster, dandelion, goldenrod, plantain and wildcarrot, dilute 1.2 litres of Certified Lab Products' **CERTIFEN** to 10 litres of water and apply 40 litres of diluted spray per 100 m². For best results, apply just before or during the period of active growth of weeds.

FISH AND WILDLIFE CAUTION: This product is toxic to fish and wildlife. Keep out of lakes, streams or ponds. Apply this product only as specified on this label. Do not contaminate water by cleaning of equipment or disposal of wastes.

PRECAUTIONS IN USE: Harmful if swallowed or absorbed through skin. Causes irritation to skin. Do not breathe vapour or spray mist. Do not get in eyes, on skin, or on clothing. Wash thoroughly after handling. Do not let this liquid come in contact with susceptible plants, such as vegetables, flowers, fruit trees, ornamentals, cotton, grapes or other desirable plants or allow spray mists to drift onto these plants. (Coarse sprays are less likely to drift.) Thoroughly clean spray equipment before using for other purposes. Do not store near fertilizers, seeds, insecticides, or fungicides. Do not contaminate water used for irrigation or domestic purposes. Do not apply to areas underlaid by roots of desirable trees and shrubs.

Do not use on lawns, walks, driveways, tennis courts, or similar areas. Do not apply when ground is frozen.

FIRST AID: In case of contact: Wash skin with soap and water. In case of eye contact: Immediately flush with large amounts of water for at least 15 minutes and get medical attention. Remove and wash contaminated clothing before reuse. **If swallowed**: DO NOT induce vomiting. Get medical attention or call poison control centre immediately. Do not give anything by mouth to an unconscious person.

TOXICOLOGICAL INFORMATION: Should illness occur, get prompt medical attention. This product contains petroleum distillate as a solvent.

DISPOSAL:

1. Rinse the emptied container thoroughly and add the rinsings to the treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with provincial requirements.
5. For information on the disposal of unused, unwanted product, and the cleanup of spills, contact the Provincial Regulatory Agency or the Manufacturer.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

NOTICE TO BUYER: Seller's guarantee shall be limited to the terms set out on the label and subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.
