PRECAUTIONS: CONTAINS METALDEHYDE. MAY BE FATAL TO CHILDREN AND PETS IF EATEN. Avoid contact with skin, eyes or clothing. Do not apply directly on plants that are to be used as food. Do not reuse container; dispose of when empty in a safe place. Dogs are attracted to metaldehyde baits and may be poisoned. See back panel for first aid instructions & wildlife cautions.

EFFECTIVE: DEADLINE excels in attracting slugs and snails. After feeding on DEADLINE, they quickly become dehydrated and die.

LOW COST: Inexpensive to use. Applied properly, this bottle can make a "deadline" 480 meters long, enough for several applications to even big yards.

EASY TO USE: Convenient, clean and easy to apply.

LONG LASTING: Neither rain nor watering will easily dissipate DEADLINE.

DIRECTIONS

FLOWERS & LAWNS: Flip-up spout and lightly squeeze a line of drops 6 to 9 cm. apart, around flower beds and lawn edges. Apply any time, but preferably in early evening. Repeat applications as needed. When applying, occasionally turn bottle upright to allow air to enter bottle.

VEGETABLE GARDENS: Apply a line of drops 6 to 9 cm. apart on soil between berry and vegetable plants. Do not apply DEADLINE directly onto the plants.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

FIRST AID INSTRUCTIONS: If accidentally swallowed, call a physician immediately. Induce vomiting & repeat until vomit fluid is clear. Use finger at the back of throat to induce vomiting. Keep patient still & warm. Give strong tea or coffee.

WARNING: This product is toxic to birds, dogs & other wildlife. Birds feeding on treated areas may be killed. Keep out of any body of water. Apply this product only from container as specified on this label.
