DISGUARD 903

DESINFECTANT/DISINFECTANT
NETTOYEUR/CLEANER
VIRULICIDE/VIRUCIDE
FONGICIDE/FUNGICIDE
ANTI-MOISSISSURE/MILDEWSTAT
DESODORISANT/DEODORIZER

Effective in hard water up to 400ppm hardness (calculated as CaCO₃) and in the presence of 5% serum contamination

Efficace dans l'eau dure jusqu'à 400ppm (CaCO₃) et en présence de 5% de matière organique.

DISINFECTANT - CLEANER FOR CHICKEN, TURKEY, QUAIL, DUCK AND GOOSE HATCHERIES.

NETTOYEUR-DESINFECTANT POUR COUVOIRS SPECIALISES EN PRODUCTION DE POULETS, DINDES, CANARDS, OIES ET CAILLES.

USAGE COMMERCIAL - COMMERCIAL USE

GARANTIE:	P/P W/W	GUARANTEE:
Chlorure d'octyl décyl diméthyl ammonium	3.255%	Octyl decyl dimethyl ammonium chloride
Chlorure de dioctyle diméthyl Ammonium	1.302%	Dioctyl dimethyl ammonium chloride
Chlorure de didécyl diméthyl ammonium	1.953%	Didecyl dimethyl ammonium chloride
Chlorure d'alkyl (40%C12, 10%C16) diméthyl dimethyl benzyl ammonium	4.340%	Alkyl (40%C12, 50%C14, 50%C14, 10%C16) ammonium chloride

DISGUARD 903 is a complete chemically balanced hatchery disinfectant and deodorant.

DISGUARD 903 is a residual bacteriostat which inhibits bacterial growth on moist surfaces.

DISGUARD 903 contains sequestering agents to prevent the precipitation of mineral and metals from hard water.

DISGUARD 903 deodorizes by killing most microorganisms that cause offensive odors. It contains no perfume to mask or hide any odors that might exist.

DIRECTIONS: Use DISGUARD 903 at 8ml/L to disinfect precleaned surfaces including hatchers, incubators, trays, racks, egg flats, sealed walls, sealed floors, sealed ceilings and other non-porous surfaces in the hatchery environment. It is also excellent for chick boxes, egg vans and trash containers.

Preclean the surface to be disinfected with DISGUARD 453 or another compatible DISGUARD hatchery cleaner. Rinse and if possible, let surfaces dry, then apply DISGUARD 903 at 8ml/L of water using a soft coarse spray, mop, cloth or sponge. Where Aspergillus is present, use 16 ml/L of water. Thoroughly wet surfaces. Surfaces must remain moist for 10 minutes for complete disinfection. Do not rinse.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. DANGER: CORROSIVE TO

EYES. DO NOT GET IN EYES, ON SKIN OR ON CLOTHING. HARMFUL IF SWALLOWED. AVOID CONTAMINATION OF FOOD.

Do not spray or apply this product unless the workers are wearing a face mask with spray mist eliminating cartridges. Do not use DISGUARD 903 on feeders or waterers and do not allow contact with food, feed or drinking water. DISGUARD 903 should not be mixed with other cleaning or disinfecting compounds. Do not use DISGUARD 903 on vaccination needles, equipment or diluent bottles as the residual germicide may render vaccines ineffective.

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

TOXICOLOGICAL INFORMATION: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression, and convulsions may be needed.

8 ml/L Use Level: The broad spectrum activity of DISGUARD 903 has been evaluated and found to be effective against the following organisms by the AOAC Use-Dilution Test:

Pseudomonas aeruginosa *Staphylococcus aureus* *Salmonella choleraesuis* *Escherichia coli* *Streptococcus pyogenes* *Klebsiella pneumoniae* *Enterobacter aerogenes* *Salmonella schottmuelleri* *Streptococcus faecalis* *Shigella dysenteriae* *Brevibacterium ammoniagenes* *Salmonella typhimurium*

AOAC Fungicidal Test: DISGUARD 903 is an effective fungicide against *Trichophyton mentagrophytes* (the athlete's foot fungus) when used on surfaces in areas such as locker rooms, dressing rooms, shower and bath areas, exercise facilities, etc.

MOLD AND MILDEW Control: at 8ml/L, DISGUARD 903 will effectively inhibit the growth of mold and mildew and the odors caused by them when applied to hard, non-porous surfaces (as indicated in general cleaning instructions above). Allow to dry on surface and repeat when mildew growth returns.

VIRUCIDAL Performance: at 8ml/L use-level, DISGUARD 903 was

evaluated and found to be effective against the Influenza A/Brazil Virus on inanimate environmental surfaces.

SNAITIZING- Non-Food Contact Surfaces (such as floors, walls, tables, etc.): at 1.5 ml/L use-level, DISGUARD 903 is an effective sanitizer against Staphylococcus aureus and Klebsiella pneumoniae on hard non-porous environmental surfaces.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offense under the Pest Control Products Act to use a control product under unsafe conditions.

DISPOSAL:

- 1) Rinse the emptied container thoroughly and add the rinsings to treatment site.
- 2) Follow provincial instructions for any required additional cleaning of the container prior to its disposal or reconditioning.
- 3) Dispose of the container in accordance with provincial requirements.
- 4) For information on the disposal of unused, unwanted product and the clean up of spills, contact the Regional Office of Environment Canada.
- 5) For small spills, remove free liquid. Soak up residue with solid absorbent. DO NOT FLUSH INTO SURFACE STREAMS. INFORM ENVIRONMENT CANADA AS IN NO.4.
