Q-250 is highly concentrated for effective economical cleaning and disinfection in hospitals, schools, institutions and industry. Bactericidal and fungicidal, Q-250 cleans, disinfects and deodorizes. Inhibits the growth of mould and mildew.

Directions for use: For all general cleaning and disinfection, add 4 mL of Q-250 per litre of water. Apply solution by cloth, mop or spray, ensuring that all surfaces are wet thoroughly. For

heavily soiled areas, pre-cleaning is recommended. Prepare a fresh solution daily, or when use solution becomes visibly dirty.

FOOD PROCESSING AND POULTRY INDUSTRIES All surfaces subject to food contact must be thoroughly rinsed with potable water after use of this product. Dilute with water - Do not mix with soaps or other chemicals.

PRECAUTIONS: Keep out of reach of children. Avoid contamination of food. Causes eye and skin irritation. Avoid getting in eyes or on skin or clothes. Harmful if swallowed. Do not store in unlined metal containers.

FIRST AID: In case of eye or skin contact, immediately flush with plenty of water, continue for at least 15 minutes. For eyes, seek medical attention promptly. If swallowed, do not induce vomiting. Drink large quantities of fluids and get medical attention immediately.

TOXICOLOGICAL INFORMATION: Administer a gastric lavage. If breathing becomes difficult, administer oxygen. Neostigmine, edrophonium and central nervous system stimulants are of no value.

NOTICE TO USER: This product is to be used only in accordance with the directions on this label. It is an offence under the PEST CONTROL PRODUCTS ACT to use a control product under unsafe conditions.
