Treated baits should be placed in locations not accessible to children, pets, wildlife, and domestic animals or in tamperproof bait boxes.

FOR RATS: Each station should contain at least one pack of bait. Maintain constant supply of bait at stations for at least 10 days.

FOR MICE: Open the pack and place tablespoon amounts(1/4 to 1/2 ounce) of bait at 8 to 12 ft. intervals. An uninterrupted supply of bait should be maintained for at least 15 days.
