## KAY LIQUID SINK SANITIZER

SANITIZING OF FOOD PROCESSING EQUIPMENT AND OTHER HARD SURFACES IN FOOD CONTACT LOCATIONS

# DIRECTIONS FOR USE:

For sanitizing food processing equipment, dairy equipment, food utensils, dishes, silverware, glasses, sink tops, countertops, refrigerated storage and display equipment and other hard non-porous surfaces. No potable rinse is required. Wash and rinse all articles thoroughly, then apply a solution of 2 ml KAY LIQUID

SINK SANITIZER in 1 liter of water (150 ppm active). Surfaces should remain wet for at least 1 minute followed by adequate draining and air drying. Fresh solution should be prepared daily or when use solution becomes visibly dirty.

Apply to sink tops, counter tops, refrigerated storage and display equipment and other stationary hard surfaces by cloth, brush or mechanical spray device. No potable water rinse is required. Dishes, silverware, glasses, cooking utensils and other similar size food processing equipment can be sanitized by immersion in a 2 mL/L solution of KAY LIQUID SINK SANITIZER. No potable rinse is required.

### PRECAUTIONARY STATEMENTS:

### KEEP OUT OF REACH OF CHILDREN

Danger: Corrosive to eyes. Do not get in eyes, on skin or on clothing. Harmful if swallowed. Avoid contamination of food.

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician or poison control center immediately.

TOXICOLOGICAL INFORMATION: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

NOTICE TO USER: This control product is to be used only in accordance with the direction on this label. It is an offense under the Pest Control Products Act to use a control product under unsafe conditions.

## DISPOSAL:

- 1. Triple or pressure rinse the empty container. Add the rinsings to the spray mixture in the tank.
- 2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal.
- 3. Make the empty container unsuitable for further use.
- 4. Dispose of the container in accordance with provincial requirements.
- 5. For information on the disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial

regulatory agency in case of a spill, and for clean-up of spills.
