BACTEX is an heavy-duty cleaner-disinfectant-sanitizer-fungicide and mildewstat. For food processing plants, institutions, schools and sporting clubs. Use on walls, floors, table tops and other surfaces.

USE DILUTION

Disinfection, cleaning: To disinfect hard, non-porous surfaces, 1:28 or 35 mL per liter of water dilution. Allow to remain wet for 10 minutes. Let air dry. BACTEX exhibits effective disinfectant activity against the organisms: Salmonella choleraesuis, Staphylococcus aureus, Escherichia coli. At this level, the product is also fungicidal against Pseudomona aeruginosa. With a sponge or a cloth, wash the surface and allow to remain wet for 10 minutes, let air dry. Efficacy tests have demonstrated that BACTEX is an effective bactericide and fungicide in the presence of organic soil (5% blood serum). All surfaces that come into contact with food are to be rinse with potable water after disinfection.

Sanitization: To sanitize previously cleaned and rinsed non-porous food contact surfaces: 1:80 or 12.5 mL per liter of water. Allow to remain wet for 60 seconds. Let air dry. BACTEX is an effective sanitizer when diluted in water up to 500 ppm hardness (CaCO₃). Prepare a fresh solution for each use.

Mold and mildewstat: BACTEX prevents and controls mold, mildew and the odors they cause on hard non-porous surfaces inanimate

surfaces at 1:40 or 25 mL per liter of water.

PRECAUTIONS:

Keep out of reach of children. Danger: corrosive to eyes. Do not get in eyes, on skin or on clothing. Harmful if swallowed. Avoid contamination of food.

TOXICOLOGICAL INFORMATION:

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression of food.

NOTICE TO USER:

This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

FIRST AID:

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

STORAGE AND DISPOSAL:

Rinse the emptied container thoroughly and add the rinsings to treatment site. Follow provincial instructions for any required additional cleaning of the container prior to its disposal or reconditioning. Dispose the container in accordance with provincial requirements. For information on the disposal of unwanted product and the cleanup of spills contact the regional office of Environment Canada. For small spills, recover free liquid, soak up residue with solids absorbent. DO NOT FLUSH INTO SURFACE STREAMS. INFORM ENVIRONMENT CANADA.
