KEEP OUT OF REACH OF CHILDREN

DIRECTIONS FOR CRAWLING INSECTS IN HOMES, GARAGES AND PATIOS

Residual spray treats hard-to-reach areas up to 1.5 metres away.
Point spray away from people, pets and plants. Spray infested
surfaces until wet, moving stream rapidly to prevent excessive
wetting. Two-way valve. Press down for spray; press down and

forward for jet.

Outdoor Use: Ants, clover mites, crickets, earwigs, fleas, millipedes, sow bugs and spiders. Spray infested areas including outside of screen doors, window frames, foundations, patios or other places where insects may enter. Spray ant runways and directly into spider webs. Do not spray plants or grass. Repeat as necessary.

Indoor Use: Ants, cockroaches, earwigs, brown dog ticks, crickets, millipedes, silverfish, spiders. Spray baseboards, under sinks, behind stoves, in cracks and other places where insects may hide. Spray ant trails. Keep children away from treated surface until spray is dry.

PRECAUTIONS:

Avoid excessive wetting of plastic, rubber, asphalt, linoleum or other surfaces which may be affected by oils.

FLAMMABLE: Do not use in presence of open flame or spark. Temperature over 50°C may burst container. Do not throw into fire. Do not place in hot water or near radiators, stoves or other sources of heat.

Remove pets, cover aquarium and food utensils before spraying. Do not use on humans, animals or plants. Do not use as a space spray.

WARNING:

May be harmful if swallowed, inhaled or absorbed through skin. Avoid breathing of spray mist and provide good ventilation while treating. Avoid contact with skin, eyes, clothing, feed or food. Wash with soap and water after using.

FIRST AID:

If on skin wash with soap and water. If in eyes rinse with plenty of water. If irritation persists consult a physician. If swallowed get prompt medical aid. Contains petroleum distillates. Propoxur is a cholinesterase inhibitor.

DISPOSAL:

When container is empty press valve to release all pressure, then dispose with household garbage.
