FORMULA 098-B is used to control algae, bacteria, and fungi in recirculating commercial and industrial cooling tower waters.

FORMULA 098-B WILL NOT FOAM.

DIRECTION FOR USE

Prior to the use of FORMULA 098-B in cooling tower waters, the systems should be cleaned to remove algae growth, microbiological slime, and other deposits. Then make an initial slug addition of 250 to 490 mL of FORMULA 098-B per 10,000 litres of water contained in the system. Repeat initial dosage until control is evident. Make subsequent slug additions of 80 to 490 mL of FORMULA 098-A per 10,000 litres of water, every 2 to 5 days or as needed. The frequency of addition depends upon the relative amount of bleedoff and the severity of the microbiological problem. Slug additions should be made in the sump of water

cooling towers.

NOTICE TO BUYER: Seller's guarantee shall be limited to the terms set out on the label and subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Workman handling the product should avoid contact of the product with clothing or skin. After any exposure, wash promptly and thoroughly with an abrasive soap and cool water and finally with glycerin. Keep the drum closed when not in use.

FIRST AID: If swallowed, call a physician or poison control centre immediately. Give patient doses of powdered charcoal immediately or all he can swallow of raw egg whites, milk, gruel, or flour and water. Then induce vomiting. In case of persistent irritation of the skin, obtain medical attention. If the product gets into your eyes, flood eyes immediately and thoroughly with cool water for 15-30 minutes. See a physician if irritation persists.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

DISPOSAL:

1. Rinse the emptied container thoroughly and add the rinsings to the spray mixture in the tank.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with provincial requirements.
5. For information on the disposal of unused, unwanted product and the cleanup of spills, contact the Provincial Regulatory Agency or the Manufacturer.
