DIRECTIONS FOR USE:

ACTIVE DOG & CAT REPELLENT is a pleasantly fragranced non-pressurized spray that is not offensive to humans but effective in helping make your pets and stray animals get off your furniture, rugs, and those localized outside home and

garden areas, when used as directed. ACTIVE DOG & CAT REPELLENT is a useful dual product for those difficult localized areas, indoors and outdoors.

This product should be used in conjunction with training of animals. Both indoors and outdoors, the most effective control for a pet is a sharply spoken word in combination with disciplinary action, when necessary.

#### INDOORS:

To alter your pets habits such as sleeping on rugs, furniture or other areas in your home, spray areas lightly to slightly moisten. To test the effect of this product, first treat a small inconspicuous area. This product may stain some fabrics or plastics. Alternatively, to avoid any possible damage, lightly spray a piece of cloth and place it on the area or object in your home you want to protect. Repeat as often as necessary until the pets' habits are broken.

#### OUTDOORS:

To prevent your pet, or stray animals, from urinating or soiling outdoor areas (steps, tree trunks, bases of shrubbery, patches of lawns, trash cans, fences, etc.) remove any droppings, hose clean and spray the spot. Repeat as often as necessary until the habits of your pet or stray are changed.

Do not apply directly to foliage of shrubs or to ornamental soft-bodied plants.

#### GENERAL:

Breaking of urination habits should only be attempted if the area is thoroughly cleaned. This product may not break the established habits of pets unless it is used in conjunction with other training methods.

#### STORAGE AND DISPOSAL:

Store in original container inaccessible to children and pets. Do not reuse empty container. Rinse thoroughly. Wrap in newspaper and discard in trash.

#### PRECAUTIONS:

Harmful if swallowed. Avoid contact with eyes and skin. Avoid contamination of feed or foodstuffs.

FIRST AID:

If swallowed, do not induce vomiting. Call a doctor or a Poison Control Centre. If inhaled, remove affected person to fresh air. If any breathing problems, get medical attention. If in eyes, flush promptly with plenty of warm water. If any irritation persists, get medical attention. If on skin, wash promptly with soap and warm water. If any irritation persists, get medical attention.

NOTICE TO USER:

This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.
