USE	APPLICATIONS INSTRUCTIONS	CONTROLS	MIXING COVERAGE
Lawn/garden renovation	For best results on lawns, skip one mowing prior to treatment. Allow at least 3 days after treatment before disturbing the soil and/or replanting.		Ensure uniform and complete spray coverage but not to the point of runoff.  This 1 L container treats a total of 20 m <sup>2</sup> (5 paces X 4 paces*)
Brush control	Apply after leaves are fully expanded. Treat trees and brush up to 1.5 m in height only; for taller trees and brush, cut back to 1.5 m or cut down and spray re-growth.	Most brush such as poplar, alder, maple and raspberry	*1 pace = approx. 1 m

---

USES: ALONG FENCE, EDGING/TRIMMING LAWNS, PATIO WEED CONTROL, DRIVEWAYS, LAWN/GARDEN RENOVATION, HARD-TO-MOW AREAS (SEE DIRECTIONS).

**PRECAUTIONS FOR USE**

Avoid spray contact with desirable plants as any plant contacted may be killed. Do not spray in windy conditions. Do not spray to the point of run-off. Heavy rainfall immediately after application may wash the chemical off the foliage and repeat treatment may be required. Do not apply if rainfall is forecast for the time of application.

**PRECAUTIONS**

KEEP OUT OF REACH OF CHILDREN. CAUSES EYE IRRITATION, HARMFUL IF SWALLOWED. Avoid contact with eyes or prolonged contact with skin. Do not allow others such as children and pets on treated areas during application or to re-enter treated areas until spray has dried. Wash immediately after using this product. Do not contaminate foodstuffs, seed or feed by storage or disposal.

**FIRST AID**

**If on skin,** flush with water.

**If ingested,** drink water or milk and get medical attention or call a Poison Control Centre.

**If in eyes,** immediately flush with plenty of water for at least 15 minutes. Call a physician or contact a Poison Control Centre.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

**DISPOSAL**

Do not reuse empty container. Wrap and dispose of empty container with household garbage.

**GENERAL PRODUCT INFORMATION**

GLYPHOSATE is a non-selective herbicide. It controls most annual and perennial grasses, including lawn grasses, broadleaf weeds and brush (i.e. virtually anything that is green and growing). It is absorbed by the leaves and moves throughout the stem and roots to control the entire plant. Mature perennial weeds should be treated after seed heads, flowers or fruit appear. All plants are most easily controlled in the young, actively growing, and seedling stage.

GLYPHOSATE wits and browns plants within 48 hours. Plants usually dry up within 7 to 14 days.

GLYPHOSATE has no soil activity and will not run off to affect nearby vegetation. To ensure that GLYPHOSATE gets down to the roots, avoid tillage or disturbing the treated area for 7-10 days after treatment or as directed below. Make sure to contact only those plants that you want to kill. GLYPHOSATE will damage or kill any desirable plants it contacts. Use a repeat application on any seedlings that re-grow from seeds.

**DIRECTIONS**

USE	APPLICATION INSTRUCTIONS	CONTROLS	MIXING/COVERAG E
Undesirable vegetation control around buildings, lawn trimming/edging, patio weed control, vacant lots, storage & recreational areas, driveways, hard to mow areas and other similar areas	Apply to vigorously growing plants. Apply to annual weeds anytime after emergence. For perennial weeds apply after seeds heads, flowers or berries appear.	Most annual and perennial grasses and weeds, such as quackgrass, chickweed, ragweed, poison ivy, Canada thistle, milkweed, bindweed.	Ensure uniform and complete spray coverage but not to the point of runoff.  This 1 L container treats a total of 20 m <sup>2</sup> (5 paces X 4 paces*)  *1 pace = approx. 1 m

Around trees/shrubs ornamentals	Apply around base in a neat fashion. Avoid spray or drift contact with foliage, stems or green bark of desirable plants.
