RHONE-POULENC CANADA INC.
2000 ARGENTIA ROAD, PLAZA 3, SUITE 400
MISSISSAUGA, ONTARIO L5N 1V9

CONTENTS: 10 LITRES

DIRECTIONS

For use on substations, storage yards, driveways, parking and
other similar areas.

Apply Liquid AMIZINE in spring or early summer, before weeds are
8 to 10 cm tall. For best results on larger weeds, cut or mow
them to ground line and remove. Treat one or two weeks later
when regrowth appears. Use Liquid AMIZINE every spring to keep

ground clear of broadleaf weeds and grasses.

For conventional high volume ground sprayers, mix 85 litres of Liquid AMIZINE in a minimum of 500 litres of water for each hectare to be sprayed. Screens in nozzles as well as those in the suction hose should be no finer than 50 mesh. Use a Tee-Jet 8002 or larger fan type nozzle or its equivalent. For knapsack sprayers, apply 800 mL of Liquid AMIZINE per 100 sq. meters in sufficient water for good coverage; generally 8 to 12 litres.

Liquid AMIZINE acts slowly but thoroughly. Treated weeds start to turn white or brown within a week and are usually dead in about three weeks. Small weeds growing actively are killed more rapidly than weeds in a dormant or dried condition.

In arid areas, Liquid AMIZINE should be watered into the ground if no rain falls within a week after treatment. Liquid AMIZINE is non-flammable and does not stain metal, stone or concrete.

USING THE WEEDONE METER-MISER

The WEEDONE METER-MISER (R) is calibrated to accurately apply the correct amount of spray mixture to the area, when pushed at such a speed that the spray pattern covers the entire width between the wheels. To avoid skips, walk in straight lines and over-lap wheel tracks about 8 cm.

Open valve after sprayer is in motion. Close valve before stopping sprayer.

(R) Registered Trade Mark

MIXING SPRAYS Shake container before using.

- A. Where hose water under pressure is available: Fill METER-MISER Tank about one-third with water. Pour in 4 litres of Liquid AMIZINE container. Mix by rocking METER-MISER back and forth several times, then spray.
- B. Where hose water under pressure is not available, or for mixing less than a tankful: Pour contents of Liquid AMIZINE container into a 20 litre bucket. Add water to make 20 litres. Stir, pour into METER-MISER tank.
- C. Double Spray Volume In areas where higher volume sprays are desired, or to minimize the possibility of skipped streaks, use double coverage. Mix spray at half-strength. Cover the area twice, first from end to end, then from side to side.

IMPORTANT: Apply spray as soon as possible after mixing. Clean

sprayer after use each day by flushing several times with clean water. Before using for weed control in turf, spray out a tankful of detergent solution to thoroughly clean tank and sprayer head. Also, clean wheels thoroughly.

Some of the weeds controlled are:

bluegrass	foxtail	quackgrass	purslane
Canada thistle	kochia	ragweed	velvet grass
chrysanthemum weed	lambsquarters	smartweed	wild oats
crabgrass	nightshade	sowthistle	witchgrass
dandelion	pigweed	plantain	

AMOUNTS TO USE

LIQUID AMIZINE	Add Water To Make	Area Covered Square Meters
4 litres	20 litres (full)	500
3.2 litres	16 litres	400
2.4 litres	12 litres	300
1.6 litres	8 litres	200
.8 litres	4 litres	100

PRECAUTION

Keep out of reach of children. Avoid contact with skin, eyes, or clothing.

Harmful if swallowed. Avoid contact with skin, eyes or clothing. Spray only the foliage you want to kill. Do not use this material to control weeds in flower or vegetable beds, field crops or in turf. When spraying near desirable trees or shrubs, keep spray off the stems and foliage of these plants. Do not contaminate water used for irrigation or domestic purposes. Do not use same sprayer for other purposes unless thoroughly cleaned.

FIRST AID

If on skin, wash thoroughly with soap and water. If in eyes flush immediately with clean water and get medical attention. If swallowed, induce vomiting by touching the back of throat with finger or blunt object. Obtain medical attention immediately.

DISPOSAL

Do not re-use empty containers. Rinse the emptied container thoroughly and add the rinsings to the spray mixture in the tank. Follow provincial instructions for any required additional

cleaning of the container prior to its disposal. Make the empty container unsuitable for further use. Dispose of the container in accordance with provincial requirements. For information on the disposal of unused, unwanted product and the clean-up of spills, contact the regional office of Conservation and Protection, Environment Canada.

Do not use this product for purposes other than those recommended on this label.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offense under the Pest Control Products Act to use a control product under unsafe conditions.

NOTICE TO BUYER: Seller's guarantee shall be limited to the terms set out on the label and subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.
