DIRECTIONS FOR USE ON CORN:

SUNSPRAY 11E is a superior type agricultural spray oil specially formulated to be used in combination with Atrazine and water. The mixture of Atrazine in this oil-water emulsion greatly improves its post emergent activity on quackgrass and other grass species.

USE PRECAUTIONS: Caution is recommended when spray is applied under very hot (dry), humid conditions, cold weather, frost or under conditions which may enhance the activity of the herbicide mixture. Note that the risk of damage to other vegetation from spray drift is increased with the use of Atrazine in oil-water emulsions. DO NOT add any other herbicides or hormone type weed killers such as 2,4-D; 2,4DB; MCPA; MCPB; or Dicamba.

SEEDLING WEEDS AND ANNUAL GRASSES: For increased activity and

to extend the period of application of Atrazine, apply 1.1 - 2.25 Kg (active) Atrazine post-emergent per hectare when the broadleaf weeds are 5-10 cm high and annual grasses are at the 1-3 leaf stage. Add the Atrazine to the oil-water emulsion containing 15 litres of SUNSPRAY 11E 150-300 litres of water per hectare.

MIXING INSTRUCTIONS: Fill the spray tank half full with water, add the desired amount of Atrazine and continue filling. Add SUNSPRAY 11E last. After filling, continue agitation.

CAUTION: Avoid violent agitation of the materials in the spray tank. Excessive agitation may produce an invert emulsion causing coagulation and settling of suspended materials.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Harmful if swallowed. Do not breathe spray mist. Avoid contact with skin, eyes or clothing. Handle and apply only as directed and at recommended rates. Do not apply or allow to drift to areas occupied by plants, other than those being sprayed or unprotected humans and animals. Do not contaminate water supplies, irrigation ditches, ponds, lakes or streams.

FIRST AID: This product contains a petroleum distillate. If swallowed, DO NOT INDUCE VOMITING. Get medical attention immediately or call Poison Control Centre. If patient is unconscious, give air. If in eyes, flush with plenty of water for 15 minutes and get medical attention. In case of skin contact, remove contaminated clothing and wash thoroughly with soap and water. Wash contaminated clothing before re-use.

STORAGE: Keep container tightly closed and DO NOT allow water to be introduced to contents of this container. Do not store at temperatures below 0°C. Shake well if stored for one year or longer.

DISPOSAL:

1. Rinse the emptied container thoroughly and add the rinsings to the spray mixture in the tank.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with the provincial requirements.

5. For information on the disposal of unused, unwanted product and cleanup of spills contact the regional office of Environmental Protection, Environment Canada.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

NOTICE TO BUYER: Seller's guarantee shall be limited to the terms set out on the label and subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.
