KEEP OUT OF REACH OF CHILDREN

Perfect Logic, 42, rue de l'Artisan
Victoriaville, (Québec) G6P 7E3
Emercengy Phone (613) 996-6666

DIRECTIONS FOR USE:**Weight per tablet: xx g**

1. Maintain recommended daily levels as determined by testing kit.

Free available chlorine: 1.0 - 3.0 ppm

pH: 7.2 - 7.8

Total alkalinity: 100 - 120 ppm

Calcium hardness: 200 - 300 ppm

2. For outdoor pools, chlorine residuals can be protected from destruction by sun's rays by adding 300 g of stabilizer (cyanuric acid) per 10 000 L of pool water to yield the required initial concentration of 30 ppm.
3. If using an automatic chlorinator, fill the chamber(s) with tablets and adjust flow rate, according the manufacturer's recommendations, to maintain proper chlorine residuals. Adding pucks to the pool's skimmer basket is an alternative chlorine feed method. Daily usage should approximate 25 g of PUNCH PUCKS per 10 000 L of pool water.

NOTE: Hot weather, heavy pool usage, and rain may require higher usage rates to maintain proper chlorine residuals.

4. Periodic superchlorination of pool water is recommended. Follow label instructions of superchlorination product being employed.
5. PUNCH PUCKS contain stabilizer which can accumulate in pool water. Keep stabilizer within the range of 30-100 ppm by dilution with fresh water.

PRECAUTIONS:

KEEP OUT OF REACH OF CHILDREN. Dangerous gas formed when mixed with acid. Do not mix with any other chemical. Strong oxidizing agent may cause fire or explosion if contaminated. It is recommended to wear rubber gloves when handling this product. Avoid contact with skin and eyes. Avoid breathing dust. Harmful if swallowed. Keep container closed and store in a cool dry location.

DISPOSAL:

Do not reuse empty container. Wrap and dispose of empty container with household garbage. For information on the disposal of unused, unwanted product, contact the manufacturer or the Provincial Regulatory Agency. Contact the manufacturer and the Provincial Regulatory Agency in case of a spill and for clean-up of spills.

WARNING:

Direct tablet contact may cause bleaching of vinyl or painted pool surfaces. Automatic feeding devices employing these tablets must be totally free from traces of other pool sanitizers to avoid the probability of an explosion.

FIRST AID:

If splashed in eyes or on skin, flush thoroughly with water for 15 minutes. For eye contact get medical attention. If swallowed, drink one glass of milk or water. Call a physician or poison control center IMMEDIATELY. Take container, label or product name and Pest Control Product Registration with you when seeking medical attention.

TOXICOLOGICAL INFORMATION:

Treat symptomatically.
