NOT INTENDED FOR HOUSEHOLD USE OR RESALE

DIRECTIONS FOR USE

GENERAL CLASSIFICATION

COOLING TOWER SYSTEMS: Before using **AQUA-BIO II** microbiocide, industrial and commercial cooling tower systems must be cleaned to remove existing algae growth, bacterial slimes, and other deposits. Then apply an initial dose of 0.5 to 1.0 litres of **AQUA-BIO II** microbiocide per 10,000 litres of recirculating water to provide a concentration of 50 to 100 ppm of **AQUA-BIO II**. Repeat this initial dose until control is evident. Subsequent doses of 0.125 to 1.0 litres of **AQUA-BIO II** (12.5 to 100 ppm) per

10,000 litres of water in the system should be applied every 2 to 5 days or as needed. The frequency of dosage depends upon the relative rate of bleedoff and the severity of the microbial contamination. The dosage should be introduced into the tower sump.

NOTICE TO USER: This control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

1. Rinse the emptied container thoroughly and add the rinsings to the treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with provincial requirements.
5. For information on the disposal of unused, unwanted product and the cleanup of spills, contact the Provincial Regulatory Agency or the Manufacturer.

PRECAUTIONARY STATEMENTS

Harmful if swallowed. Avoid breathing vapours. Avoid contact with skin and eyes.

This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds, or public waters. Do not contaminate water by cleaning of equipment or disposal of waste. Use only as directed on this label.

FIRST AID: If swallowed, do not induce vomiting. Drink large quantities of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. In case of eye contact, flush with plenty of water for 15 minutes. Avoid alcohol. Call a physician or poison control centre immediately.

NOTICE TO BUYER: Seller's guarantee shall be limited to the terms set out on the label and subject thereto, the buyer assumes the risk to persons or property arising from the use of handling of this product and accepts the product on that condition.
