DIRECTIONS FOR USE:

Apply DMR-23 DISINFECTANT with a cloth or mop. Treated surfaces must remain wet for 10 minutes. Fresh solution should be prepared daily or when use solution becomes visibly dirty.

FOR DISINFECTION OF POTATO WAREHOUSES AND EQUIPMENT - To control *corneobacterium sepedonicum*/ring rot, add 6.7 mL DMR-23 DISINFECTANT to 1 litre water after thorough cleaning. After disinfection, ventilate buildings and closed spaces. All treated equipment must be rinsed with potable water before reuse.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. HARMFUL IF SWALLOWED. MAY CAUSE EYE DAMAGE AND SKIN IRRITATION. DO NOT GET IN EYES OR ON SKIN. AVOID CONTAMINATION OF FOOD.

FIRST AID: In case of contact, immediately flush eyes or skin for at least 15 minutes. For eyes, get medical attention. If

swallowed, drink milk, egg whites, gelatin solution or large quantities of water. Get medical attention immediately.

NOTICE TO USER:

This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

DISPOSAL:

1. Rinse the emptied container thoroughly and add the rinsings to treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal.
3. Make container unsuitable for further use.
4. Dispose of the container in accordance with provincial requirements.
5. For information on the disposal of unused, unwanted product and the cleanup of spills, contact the Provincial Regulatory Agency or the Manufacturer.
6. For small spills, recover free liquid. Soak up residue with solids absorbant. DO NOT FLUSH INTO SURFACE STREAMS, CONTACT THE PROVINCIAL REGULATORY AGENCY OR THE MANUFACTURER.

TOXICOLOGICAL INFORMATION: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.
