REG. NO. 19595 PCP ACT

DANGER

EXTREMELY FLAMMABLE

EXPLOSIVE

CCL INDUSTRIES INC
26 WATERMAN AVENUE
TORONTO, ONTARIO
M4B 1Y5

For use as a spot or crack and crevice treatment to control
insects listed on front panel in and around the home.

INDOOR USE: Spot treatment. Treat cracks, crevices, baseboards,
underneath furniture and equipment, around garbage containers,
localized areas of floors under floor coverings and other places
where insects hide and congregate. For brown dog ticks, remove
bedding and treat around animal sleeping quarters. Do not treat
animals with this product.

OUTDOOR USE: Spot treatment. Spray outside surfaces of screens, doors, window frames, foundations, patios, light fixtures and other places where insects may alight, or congregate and enter. For ants, treat hills and runways. Do not treat vegetation. Repeat as necessary.

DIRECTIONS: Hold container approximately 30 cm from surface spot being sprayed and spray until wet. Thorough applications produce a coating which will vapourize into cracks and crevices for insect control. If reinfestations occur, repeat applications as necessary. Provide adequate ventilation after indoor use. KEEP PETS AND CHILDREN AWAY FROM SURFACE UNTIL DRY.

PRECAUTION: KEEP OUT OF REACH OF CHILDREN. In dwellings, remove or cover exposed foods and utensils before spraying. After spraying, clean surface which may contact food. Contents under pressure. Do not place in hot water or near radiators, stove or other sources of heat, or store at temperatures over 50 deg C. Do not spray near open flame or spark. Harmful if swallowed, inhaled or absorbed through skin. Avoid contact with eyes, skin or clothing. DO NOT USE ON HUMANS, PLANTS, ANIMALS, FOODSTUFF, FOOD UTENSILS, FISHBOWLS OR ANIMAL FEED AREAS. DO NOT USE AS A SPACE SPRAY.

FIRST AID TREATMENT: Contains volatile petroleum distillate. If swallowed, do not induce vomiting. Call physician immediately. Diazinon is a cholinesterase inhibitor. Atropine is antidotal. In case of contact with the skin, wash with soap and water. If in eyes, flush with water for 15 minutes, get medical attention.

DISPOSAL: When container is empty, press button to release all pressure, then dispose of in household garbage. Do not puncture or incinerate.
