Simcoe-CC4

CHLORINATING LIQUID

for Crystal Clear POOL WATER

Disinfects & Purifies SWIMMING POOL WATER

DOMESTIC

READ THE LABEL BEFORE USING

Controls Algae

GUARANTEE:

SODIUM HYPOCHLORITE 10.8% WHEN PACKED
12 % AVAILABLE CHLORINE

REGISTRATION NUMBER 18888 PEST CONTROL PRODUCTS ACT

WARNING CORROSIVE

DANGEROUS GAS FORMED WHEN MIXED WITH ACID

DO NOT STORE IN TRUNK OF CAR FOR EXTENDED PERIOD

10 Litre
20 Litre

SIMCOE DISTRICT CO-OPERATIVE
259 INNISFIL STREET
BARRIE, ONTARIO L4N 3G2
Tel.: (705) 726-6531

DIRECTIONS: Before adding Simcoe-CC4, the pH should be tested and adjusted to within 7.2 - 7.6. Add muriatic acid if pH is high. Add soda ash if pH is low.

Simcoe-CC4 should be added daily to maintain 0.6 to 1.0 parts per million available chlorine. The use of a test kit is recommended, as the air temperature and the number of people in the pool will affect the amount of Simcoe-CC4 required.

Under average conditions, Simcoe-CC4 should be added daily to pool water according to the following chlorination guide.

Pool Capacity (Litres)	Daily Charge (Litres)
10,000	125 - 250 mL
20,000	250 - 500 mL
50,000	625 mL - 1.25 L
100,000	1.25 - 2.50 L
250,000	3.25 - 6.25 L

Note: First application should be double the high rate of the indicated amount.

Every three weeks, add one week's charge of Simcoe-CC4 in one application to ensure proper control of algae, slime and fungus. Avoid using pool until chlorine residual drops below 2.0 p.p.m. (approximately 24 hrs).

FOR SANITARY SWIMMING & WADING POOL WATER: Add the correct amount of Simcoe-CC4 to the water daily. For wading pools add 5 mL Simcoe-CC4 for every 100 L of water daily. Simcoe-CC4 is recommended for use in all types of pools; vinyl lined, concrete and fibre glass.

CAUTION: KEEP OUT OF THE REACH OF CHILDREN. NEVER MIX WITH OTHER POOL OR HOUSEHOLD CHEMICALS. Do not mix with a toilet bowl cleaner or rust remover. Avoid contact with skin and eyes. May be fatal or harmful if swallowed. Store only in original container tightly closed in a cool, dry place away from heat and sunlight, in an upright position.

FIRST AID TREATMENT: Contains Sodium Hypochlorite. If splashed in eyes or on skin, flush thoroughly with water. If swallowed, give one or two glasses of milk or warm water. Call a physician immediately. Keep patient warm.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.
