DIRECTIONS FOR USE: To be used only in the manufacture of a herbicide, which is registered under the **PEST CONTROL PRODUCTS ACT**. Read Technical Bulletin for formulation details

SAFETY PRECAUTIONS: KEEP OUT OF THE REACH OF CHILDREN OR UNAUTHORIZED PERSONNEL. Harmful if swallowed or inhaled. Avoid contact with skin, eyes or clothing. Wear protective goggles and gloves when handling.

FIRST AID INSTRUCTIONS: If on skin, remove contaminated clothing and wash with plenty of soap and water. If in eyes, flush with clean water for at least 15 minutes. Get medical attention or contact a poison control center. If swallowed do **NOT** induce vomiting, immediately transport patient to nearest hospital, taking this label with you or contact a poison control center. Take container, label or product name and Pest Control Products Registration Number with you when seeking medical attention.

SYMPTOMS OF POISONING: Irritation of the skin may occur following excessive contact with the product. Prolonged inhalation of spray may cause irritation to nose, eyes, and throat causing a burning sensation and cough. When ingested, material irritates the mouth and throat and usually causes enough gastrointestinal irritation to induce vomiting. Absorption of large quantities may produce muscle twitching, tenderness and stiffness.

TOXICOLOGICAL INFORMATION:

NOTICE TO THE PHYSICIAN: There is no specific antidote. If material is ingested, empty stomach by intubation aspiration and lavage with isotonic saline or sodium bicarbonate. Administer or instill 30 grams of activated charcoal in 100 ml of water to limit absorption of remaining material.

DISPOSAL: Canadian formulators using this product should dispose of unwanted active ingredients and containers in accordance with municipal or provincial requirements. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in cases of a spill and for clean-up of spills.

PROCEDURES FOR HANDLING SPILLS OR CONTAINER BREAKAGE: Wear appropriate protective equipment to avoid contact with skin, eyes nose and clothing during clean-up procedures. These include rubber or neoprene gloves and boots, impervious apron or suit and respirator. After clean up is complete, individuals should shower well and dress in clean clothes. Launder separately from household laundry any garments, which were used during clean up.

For liquid spills, surround and cover the spill with absorbent material, such as sawdust, talc or clay and allow to stand. After one hour collect with shovel and place into a container for disposal in accordance with municipal or provincial requirements. Do not contaminate water, food or feed by storage or disposal of containers or decontamination materials.

NOTICE TO USER: This control product is to be used only in accordance with the directions on the label. It is an offense under the **Pest Control Products Act** to use a control product under unsafe conditions.

NOTICE TO BUYER: Seller's guarantee shall be limited to the terms set out on the label, and subject thereto, the buyer assumes the risk to the persons or property arising from the use or handling of this product and accepts the product on that condition.

This label transcript service is offered by the Pest Management Regulatory Agency to provide efficient searching for label information. This service and this information do not replace the official hard-copy label. The PMRA does not provide any guarantee or assurance that the information obtained through this service is accurate, current or correct, and is therefore not liable for any loss resulting, directly or indirectly, from reliance upon this service.
