Buckman Laboratories Of Canada, Ltd.
351 Joseph-Carrier Blvd., Vaudreuil,
Quebec J7V 5V5

CONTROLS:

Busan 30 liquid seed treatment is recommended for the control of stinking smut or bunt of wheat, false loose smut and covered smut of barley, loose and covered smuts of oats and seed and

soil-borne seedling blights (seed-borne root rots) of wheat, barley and oats.

Directions for use:

For ready-mix treaters, apply the following quantities per 25 kilograms of seed treated.

Wheat	20 mL
Oats	35 mL
Barley	25 mL

Do not over-treat. Over-treating may cause reduction in germination. Seed to be treated should be well matured and dry. Do not use lightweight grain for seed.

IMPORTANT: LABEL TREATED SEED "POISONOUS - DO NOT USE AS A FEED - This seed has been treated with 2-(thiocyanomethylthio) Benzothiazole (30% by weight)." Treated seed should not be stored longer than 5 months before planting.

DISPOSAL:

- 1) Rinse the emptied container thoroughly and add the rinsings to the spray mixture in the tank.
- 2) Follow provincial instructions for any required additional cleaning of the container prior to its disposal.
- 3) Make the empty non-recyclable container unsuitable for further use.
- 4) Dispose of the container in accordance with provincial requirements.
- 5) For information on the disposal of unused, unwanted product and the cleanup of spills, contact the Provincial Regulatory Agency or the Manufacturer.

PRECAUTIONS

KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed - may be harmful if absorbed through the skin. Workmen handling the product should wear rubber gloves and goggles and should avoid contact with the product with clothing or skin. After exposure, wash promptly and thoroughly with an abrasive soap and cool water. Do not apply indoors unless good ventilation is provided. Store seed in well-ventilated place. Wash contaminated clothing before reuse. Do not contaminate

streams, lakes, irrigation water, livestock water supplies, or domestic water supplies. Wear goggles to protect eyes from possible splashing.

FIRST AID

Eye exposure: Flush with clean, cool water for at least 15 minutes or longer till irritation subsides. See a physician if irritation occurs.

Skin exposure: Wash with a mild soap and water. See a physician if irritation occurs. Remove and wash contaminated clothing (including shoes) before reuse.

Inhalation: Use proper respiratory protection to immediately remove the affected person from exposure. Administer artificial respiration if breathing has stopped. Keep at rest. Get prompt medical attention.

Ingestion: DO NOT INDUCE VOMITING. Rinse mouth with copious amounts of water or milk, first. Irrigate the esophagus and dilute stomach contents by slowly giving one (1) to two (2) glasses of water or milk. Avoid giving alcohol or alcohol related products. In cases where the individual is semi-comatose, comatose or convulsing, DO NOT GIVE FLUIDS BY MOUTH. In all cases, seek immediate medical assistance or Poison Control Centre.

TOXICOLOGICAL INFORMATION: Note to physician: Probable mucosal damage following ingestion may contraindicate gastric lavage.

NOTE: Do not mix with other liquid seed treatments. Clean out treating machinery before using Dual-Purpose Non-Mercurial Liquid Seed Treatment. Do not store in temperatures lower than -18°C.

ENVIRONMENTAL HAZARDS:

The product is toxic to fish. Keep out of lakes, streams or ponds. Do not contaminate water, food, or feed by storage or disposal.
