USE DIRECTIONS

For cleaning - Lightly soiled areas-surfaces to be cleaned should be mopped or brushed with a solution containing 6 mL of Super Bactrole per litre of water. Rinse cleaned area with fresh water.

Heavily soiled areas-mop or brush soiled surface with a solution containing 12 mL of Super Bactrole per litre of water. Rinse cleaned surface with fresh water.

General purpose disinfection - To disinfect walls, floor and other hard surfaces in schools, restaurants, rest rooms and other public areas, mop or brush surface to be treated with a solution containing 6 mL of Super Bactrole per litre of water. Surfaces that are heavily soiled should be cleaned with 16 mL of Super Bactrole per litre of water and then disinfected. Those surfaces which may later come in contact with food must be rinsed with clear water of drinking quality.

Hospital disinfection - To disinfect walls, floor, furniture and other hard surfaces in hospitals and nursing homes, mop or brush surface to be treated with a solution containing 9 mL of Super Bactrole per litre of water. Those surfaces that are heavily soiled with blood, fecal material or exudates should be thoroughly cleaned with a solution containing 16 mL per litre of water and then disinfected with a fresh solution containing 9 mL per litre of water.

Deodorization - To deodorize surfaces during cleaning, mop or brush surfaces with a solution containing 9 mL of Super Bactrole per litre of water. It is an effective antibacterial cleaner designed for use in industrial and institutional cleaning. It may be relied upon to deodorize bathroom areas, garbage pails, food storage areas and other areas where obnoxious odors may develop.

PRECAUTIONS

Keep out of reach of children - Corrosive. Causes severe eye and skin damage. Do not get in eyes, on skin or on clothing. Protect eyes and skin when handling. Harmful if swallowed. Avoid contamination of food.

First Aid - In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes and call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg white, gelatin solution or if these are not available, drink large

quantities of water. Avoid alcohol. Never give anything by mouth to an unconscious person. Call a physician or poison control centre immediately.

Toxicological Information - Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

Notice to User - This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

DISPOSAL

1. Rinse the emptied container thoroughly and add the rinsings to the treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with provincial requirements.
5. For information on the disposal of unused, unwanted product and the cleanup of spills, contact the Provincial Regulatory Agency or the Manufacturer.

This label transcript service is offered by the Pest Management Regulatory Agency to provide efficient searching for label information. This service and this information do not replace the official hard-copy label. The PMRA does not provide any guarantee or assurance that the information obtained through this service is accurate, current or correct, and is therefore not liable for any loss resulting, directly or indirectly, from reliance upon this service.
