PestChaser(R)

Ultrasonic Pest Repeller

Model PC110S

PestChaser(R)

Model PC110S

Use 110 Volt Outlet

- Is a high quality ultrasonic sound generator designed to produce intense sound in specific frequency ranges heard by rodents. Species affected by ultrasonic sound avoid it when possible. Humans, common pets and farm animals cannot hear these frequencies.

...puts the sound power where you need it.

Aids in protecting your children, food and belongings from destructive rodents.

- Ultrasonic sound is most effective when combined with other pest control methods. This tool can increase the overall effectiveness of your efforts to eliminate rodent pest problems.
- Today's electronic technology is combined with pest behaviour research in an attractive, compact device which can safely be used around people, their pets and electronic appliances.

Details in owner's information booklet included with unit.
