MAYWOOD, IL 60153
U.S.A.

ONLY FOR SALE TO, USE, & STORAGE BY SERVICE PERSONS.

- Shoots up to a 6m (20 feet) stunning blast.
- Kills hornets, spiders, yellow jackets, bees, wasps.

INDUSTRIAL SPECIFICATIONS: Flash Point: Above 150'C (300'F).

Fire Point: Above 150'C (300'F). Electrically Nonconducting*

- Spray Test: Electrodes 27.5 cm (11') apart; no arcing up to 35,000 volts.
- Cup Test: Electrodes .25 cm (1/10') apart; average breakdown voltage 21,500 volts.

NOTICE TO USER - This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

DIRECTIONS FOR USE: Remove protective cap. Point nozzle toward nest, crevice, or hole where infestation or insects are known to be inside. For indoor use, spray from 30-45 cm (12 to 18 inches) away from nest, crevice or hole. For outdoor use, wasp killer can be used 6 m (20 feet) away. Press valve all the way down and spray. This treated surface will have a residual killing action and prevent reinfestation for weeks. In the event the insecticide film becomes ineffective due to rain or other causes, repeat treatment. Application should be made in the late evening when insects are at nest. Hold can upright. Point valve opening away from face. With wind at back, aim at nest. Thoroughly saturate nest with spray, contacting as many insects as possible. To prevent insects from falling on skin and clothing, do not stand directly under the nest. Do not spray vegetation. If reinfestation occurs, repeat treatment. Do not use as a space spray. When using indoors avoid wetting asphalt tile, rubber and plastic materials. Storage: Store in a cool, dry area away from heat or open flame.

PRECAUTIONS: CONTENTS UNDER PRESSURE. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperature above 50'C may cause bursting. May be harmful if swallowed, inhaled, or absorbed through the skin. Avoid breathing of spray mist and provide adequate ventilation of area being treated. Contact with skin, eyes, or clothing should be avoided. Wash thoroughly with soap and warm water after handling. If poisoning occurs, get prompt medical aid. Avoid contamination of food, utensils, food preparation areas. Do not use in commercial food preparation areas or in edible product areas of food processing plants. Avoid contamination of fish ponds. Remove pets from area before spraying. KEEP OUT OF REACH OF CHILDREN.

TOXICOLOGICAL INFORMATION: Propoxur is a cholinesterase inhibitor. Atropine is antidotal.

FIRST AID: IF SWALLOWED: Call physician or poison control centre. Drink 1 or 2 glasses of water and induce vomiting by

touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. IF INHALED: Remove from contaminated atmosphere. Give artificial respiration and oxygen if necessary. IF ON SKIN: Wash with soap and water. IF ON EYES: Wash with plenty of water. Get medical attention if irritation persists.

DISPOSAL: When container is empty, press valve to release all pressure. Dispose of empty container in accordance with provincial requirements. For information on the disposal of unused, unwanted product and cleanup of spills contact the regional office of Conservation and Protection, Environment Canada.
