DIRECTIONS: Hold container approximately 30 cm from surface being sprayed and spray until wet. Thorough applications produce a coating which will vapourize into cracks and crevices for insect control. Provide adequate ventilation after indoor use. KEEP PETS AND CHILDREN AWAY FROM SURFACE UNTIL DRY. Thoroughly treat places that insects inhabit such as cracks, crevices and spots along baseboards, underneath furniture and equipment, around garbage containers and outside surfaces such as doors, foundations and patios. In dwellings, remove or cover exposed foods, cooking utensils and food preparation surfaces before spraying to avoid contamination. After spraying, clean surfaces which may contact food. Remove pets from the room during spraying. Cover or remove aquarium for 1 hour.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Contents under pressure. Do not place in hot water or radiators, stoves or other sources of heat, or store at temperatures over 50°C. Do not spray near flame or spark. Harmful if swallowed, inhaled or absorbed through skin. Avoid contact with eyes, skin or clothing. Wash hands after using. DO NOT USE ON HUMANS, PLANTS, ANIMALS, FOOD STUFF, FOOD UTENSILS, FISH BOWLS, OR ANIMAL FEED AREAS. DO NOT USE AS AN AIR SPRAY.

FIRST AID TREATMENT: Contains volatile petroleum distillate. If swallowed, do not induce vomiting. Call physician or poison control centre immediately. Propoxur is a mild cholinesterase inhibitor. Atropine is antidotal. In case of contact with the skin, wash with soap and water. If in eyes, flush with water for 15 minutes, get medical attention.

DISPOSAL: When container is empty, press button to release all pressure, then dispose in household garbage. Do not puncture or incinerate.
