DIRECTIONS: **Later's Pruning Seal** is ready to use with its own built-in applicator as a fast, effective dressing designed to aid in healing of pruning cuts, grafts, abrasions and wounds on woody plants and trees. It provides a protective coating that prevents the entry of moisture into the exposed cut and excessive sap flow. Replace cap tightly when finished to prevent drying out. Spills can be cleaned up with turpentine or mineral spirits (substitute for turpentine).

HOW TO USE: ROSES AND ORNAMENTAL SHRUBS, FRUIT AND SHADE TREES: Treat all pruning cuts over 2 cm in diameter. Cut decayed or dead limbs or twigs to living wood, trim rough edges and treat. Apply from can, using the built-in applicator. Apply immediately after pruning cuts are made or when grafting is complete.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. May be harmful if swallowed. Avoid contact with eyes and skin. CONTAINS PETROLEUM NAPHTA. KEEP AWAY FROM HEAT OR OPEN FLAME. USE ONLY IN WELL VENTILATED AREAS.

FIRST AID: **If swallowed**, DO NOT induce vomiting. Contains petroleum distillate. Contact a doctor or poison control centre IMMEDIATELY. **If in eyes**, flush with water for at least 15 minutes. Get medical attention. **If on skin**, use a white mineral oil or a hand cleaner and wash with soap and water. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

STORAGE: Keep product in original container. Store in a cool, dry place away from food.

DISPOSAL: Do not reuse empty container. Wrap container and discard with household garbage.

NOTICE TO BUYER: Seller's guarantee shall be limited to the terms set out on the label and, subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.
