READ THE LABEL BEFORE USING

(R)Reg. T.M. of Huls Canada Inc.

LOT NO. _____

NET CONTENTS _____ KGS.

For use as a fungicide for textiles, cordage and wood.

DIRECTION FOR USE:

For the preservation of exterior seasoned wood products. For exterior use only. Not for use in dwellings. For above ground use only. Apply to wood surface by brush only for on site field applications. For industrial use only in commercial spraybox, flow coating or dip tank. Equipment must be free of leaks. Equipment must have provision to eliminate or contain mist, overspray, drips and spillage into the surrounding environment. Use of this product in industrial settings requires adequate engineered ventilation and containment in the treating area and in the area where wood is dried. Do not use the preservative on treated wood where Copper Naphthenate may contaminate food, feed or drinking water. May be used on greenhouse and garden timbers in contact with non-food producing plants only. Carrier solvent must be allowed to dry thoroughly before introducing plants to prevent phytotoxicity.

For Fabric Use: For use only on exterior industrial fabric, duck cloth, awnings, etc. Do not use on rubber lined fabric. Not for use on fabrics which may come into prolonged contact with skin.

Use with caution on millwork such as, door and window frames, where subsequent painting may cause bleeding.

For the preservation of textiles and cordage, deposit 0.4% to 1.0% as copper metal on finished weight of product. As a wood preservative, a 2.0% copper metal solution should be used in brush, dip or spray treatment and a 0.5% copper metal solution should be used for pressure treatment.

NOTICE TO USER:

This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

PRECAUTIONS:

Avoid breathing concentrated vapour. Harmful if swallowed or inhaled. Use a cartridge respirator appropriate for the job conditions, e.g., poorly ventilated areas. Wear rubber or plastic gloves and appropriate covering clothing when applying this product. Use goggles in case of splash hazard. Flammable. Do not use or store near open flame or spark, or in areas subject to excessive heat. Keep out of reach of children and animals. Do not

contaminate bodies of water. This product is toxic to fish.

FIRST AID:

If swallowed, do not induce vomiting. Call physician immediately. If splashed in eyes, flush with clean water for 15 minutes and contact a physician. In case of skin contact, remove the product from the skin promptly by washing with hand degreaser and then with soap and water.

TOXICOLOGY:

Contains petroleum distillate and Copper Naphthenate. Treat as for ingestion of kerosene.

DRUM DISPOSAL:

1. Rinse the emptied container thoroughly and add the rinsings to treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal or reconditioning.
3. Dispose of the container in accordance with provincial requirements.
4. For information on the disposal of unused, unwanted product and the cleanup of spills contact the regional office of Conservation and Protection Service, Environment Canada.
5. For small spills. Recover free liquid. Soak up residue with solids absorbent. DO NOT FLUSH INTO SURFACE STREAMS, INFORM ENVIRONMENT CANADA AS IN #4.

NOTICE TO BUYER:

Seller's guarantee shall be limited to the terms set out in the label and subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.
