EXO

DESINFECTANT - CLEANER -SANITIZER - FUNGICIDE
MILDEWSTAT - VIRUCIDE -DEODORIZER

With Organic Soil Tolerance for Hospitals, Institutional and
Industrial Use.

GUARANTEE:

Alkyl (C12 40%, C14 50%, C16 10%)	
dimethyl benzyl ammonium chloride	8,680%
Octyl decyl dimethyl ammonium chloride	6,510%
Dioctyl dimethyl ammonium chloride	2,604%
Didecyl dimethyl ammonium chloride	3,906%

EXO

Cross-contamination is of major housekeeping concern not only

in hospitals but in schools, institutions and industry. Exo has been formulated to aid in the reduction of cross-contamination in these areas.

Exo is a one-step disinfectant-cleaner that is effective against a broad spectrum of bacteria, is virucidal, fungicidal and will prevent the growth of mold and mildew and their odors when used as directed.

Exo is an effective one-step sanitizer-cleaner for use on non-food contact surfaces. When used as directed, Exo will deodorize surfaces in toilet areas, behind and under sinks and counters, garbage cans and garbage storage areas and other places where bacterial growth can cause malodors.

PRECAUTIONARY STATEMENTS

KEEP OUT OF REACH OF CHILDREN. DANGER CORROSIVE TO EYES
DO NOT GET IN EYES, ON SKIN OR ON CLOTHING. HARMFUL IF
SWALLOWED. AVOID CONTAMINATION OF FOOD.

FIRST-AID - In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

TOXICOLOGICAL INFORMATION - Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

DISPOSAL

1. Rinse the emptied container thoroughly and add the rinsings to treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal or reconditioning.
3. Dispose of the container in accordance with provincial requirements.
4. For information on the disposal of unused, unwanted product and the cleanup of spills contact the regional

office of Environment Canada.

5. For small spills. Recover free liquid. Soak up residue with solids absorbent. DO NOT FLUSH INTO SURFACE STREAMS, INFORM ENVIRONMENT CANADA AS IN NO.4.

NOTICE TO USER - This control product is to be used only in accordance with the directions on this label. It is an offense under the Pest Control Products Acts to use a control product under unsafe conditions.

DIRECTIONS FOR USE

Exo is a proven "one-step" disinfectant-cleaner-sanitizer-fungicide-mildewstat-virucide which is effective in water up to 400 ppm hardness in the presence of 5% serum contamination.

Apply Exo to walls, floors and other hard (inanimate) non-porous surfaces such as tables, chairs, countertops, sinks, tile, porcelain and bedframes with a cloth, or mop so as to thoroughly wet surfaces. For heavily soiled areas, a preliminary cleaning is required. Prepare a fresh solution daily or when use solution becomes visibly dirty.

DISINFECTATION - to disinfect hard non-porous surfaces, add 4 ml./l of water. Treated surface must remain wet for 10 minutes. At this use level, Exo is also virucidal and fungicidal.

SANITIZING - to sanitize non-porous, non-food contact surfaces, add 1 ml/l of water. Treated surfaces must remain wet for 60 seconds.

4 ml/l Use Level - the broad spectrum activity of Exo has been evaluated and found to be effective against the following organisms by the AOAC Use-Dilution test:

Pseudomonas aeruginosa	Staphylococcus aureus
Salmonella choleraesuis	Escherichia coli
Streptococcus pyogenes	Klebsiella pneumoniae
Enterobacter aerogenes	Salmonella shottmuelleri
Streptococcus faecalis	Shigella dysenteriae
Brevibacterium ammoniagenes	Salmonella typhi

AOAC FUNGICIDE TEST - Exo is an effective fungicide such as Trichophyton mentagrophytes (the athletes foot fungus) when

used on surfaces in areas such as locker rooms, dressing rooms, shower and bath areas, exercise facilities, etc.

MOLD AND MILDEW CONTROL - at 4 ml/l Exo will effectively inhibit the growth of mold and mildew and the odors caused by them when applied to hard, non-porous surfaces (as indicated in general cleaning instructions above). Allow to dry on surface and repeat when mildew growth returns.

Virucidal Performance: at 4 ml/l use-level, Exo was evaluated and found to be effective against the Influenza A/Brazil Virus on inanimate environmental surfaces.

SANITIZING - Non-Food Contact Surfaces (such as floors, walls, tables etc.) at 1 ml/l use level, Exo is an effective sanitizer against Staphylococcus aureus and Klebsiella pneumoniae on hard non-porous environmental surfaces.

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATING AGAINST H.I.V.-1 ON SURFACES AND OBJECTS SOILED WITH BLOOD OR BODILY FLUIDS:

This product is effective against H.I.V. (Human immunodeficiency Virus) in hard water up to 400 ppm (CaCO₃), and in the presence of organic soil (5% blood serum)

PERSONAL PROTECTION - When handling items soiled with blood or bodily fluids, wear disposable latex gloves, gowns, masks and eye coverings.

CLEANING PROCEDURES - Thoroughly clean blood or bodily fluids from surfaces before applying Exo.

CONTACT TIME - To kill H.I.V.-1, apply Exo. at 16 ml for 4 liters of water and allow surface to remain wet for 10 minutes.

DISPOSAL OF INFECTIOUS MATERIALS - Blood, body fluids, cleaning materials and clothing should be autoclaved and disposed of according to provincial and local regulations for infectious waste disposal.
