NET CONTENTS: 18.9 LITERS

#### **DIRECTION FOR USE:**

One liter of Decco 273 Aerosol is normally enough to treat 25 tonnes of stored potatoes. Apply at a rate of 1 Kg active ingredient per 50 tonnes of potatoes. For long storage periods, residue samples should be taken throughout the storage period. If the residues observed fall below the recommended level, repeat application.

If it is known that the potatoes are to be held in storage for 4-6 months, the applicator can use 2 Kg of active ingredient per 50 tonnes of potatoes. For shorter storage periods, use 1 Kg of active ingredient per 60 tonnes of potatoes. The initial amount of residue will determine the anti-sprouting properties under identical conditions.

Apply this product by fogging type applicators which heat the liquid in a hot gas stream to the vapor state and then allow the issuing vapor to cool to a mist of fine particles. This equipment should be used as directed by the manufactures. Apply this product to the potatoes stored in storage rooms equipped with air circulating fans.

Decco 273 Aerosol should be used for post harvest sprout inhibition on cured potatoes only. CIPC will prevent suberization (wound healing or periderm formation) on injured potatoes and should be used only after a two weeks minimum healing period for the tissue injuries prior to its application.

Do not use on seed potatoes. Do not bring seed potatoes into storage that has been treated until the storage room has been cleaned and disinfected and dried. CIPC will prevent or delay sprouting of planned seed potatoes. Decco 273 Aerosol is a liquid at normal temperature. If the container has been subjected to cold weather, warm the container by placing it in warm water. Once opened, use the entire contents of the container.

#### **PRECAUTION: KEEP OUT OF REACH OF CHILDREN**

Avoid inhalation of spray. Wash hands after use. Do not remain in treated area. Do not contaminate food or feed. Do not contaminate feed or water trough. Harmful if swallowed. Do not take internally. Protect eyes and mouth when working in a confined space. Do not use in areas where bee-keeping equipments or supplies are stored. Product is toxic to fish. Do not contaminate any body of water.

**FIRST AID:** Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

If on skin, wash thoroughly with soap and water. Remove the contaminated clothing and wash separately from household laundry.

If in eyes, flush with plenty of clean water. If irritation persists, obtain medical attention.

If accidentally swallowed, induce vomiting, obtain medical attention at once, or contact a Poison Control Center.

**TOXICOLOGICAL INFORMATION:** Low general toxicity. Acute dermal LD 50 is greater than 2 g/Kg (rabbits). Acute oral LD50 is 5 g/Kg(rats)

If this pest control product is to be used on a commodity that may be exported to the U.S and you require information on acceptable residue levels in the U.S. contact 1-866-375-4648 or [www.cropro.org/](http://www.cropro.org/)

**DISPOSAL:**

1. Triple –or pressure – rinse the empty container. Add the rinsing to the spray mixture in the tank.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with provincial requirements.
5. For information on the disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spill.

**NOTICE TO USER:**

This control product is to be used only in accordance with the directions on this label. It is an offense under the Pest Control Products Act to use a control product under unsafe conditions.

**NOTICE TO BUYER:**

Seller=s guarantee shall be limited to the terms set on the label and subject thereto the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.
